Department of Transportation,1995 **The Classical World** ,1907 *Literature* ,1901 **The life of mise-en-scène** John Gibbs,2015-11-01 The life of mise en sc ne offers a critical history of key debates about visual style in British film journals in the post war period It reclaims an often ignored or misrepresented history including the concept of film poetry in the journal *Sequence* changing attitudes in Sight and Sound during the 1950s and the battle over the significance of film style which raged between a number of small journals and the national press in the early 1960s It examines the British school first associated with *Movie* in the 1960s which in Adrian Martin s words is enjoying a widespread international revival but also other critical movements more hazily remembered It explores the role of mise en sc ne in melodrama criticism and considers what happened to detailed criticism as major theoretical movements emerged in the 1970s In doing so it provides a vital context for the contemporary practice of style based criticism and challenges received notions of critical history developing our understanding of a range of other key debates and concerns in the study of film

The Modern Review ,1913 **Medieval Music and the Art of Memory** Anna Maria Busse Berger,2019-10-08 Winner of the ASCAP Deems Taylor Award and Society of Music Theory s Wallace Berry Award This bold challenge to conventional notions about medieval music disputes the assumption of pure literacy and replaces it with a more complex picture of a world in which literacy and orality interacted Asking such fundamental questions as how singers managed to memorize such an enormous amount of music and how music composed in the mind rather than in writing affected musical style Anna Maria Busse Berger explores the impact of the art of memory on the composition and transmission of medieval music Her fresh innovative study shows that although writing allowed composers to work out pieces in the mind it did not make memorization redundant but allowed for new ways to commit material to memory Since some of the polyphonic music from the twelfth century and later was written down scholars have long assumed that it was all composed and transmitted in written form Our understanding of medieval music has been profoundly shaped by German philologists from the beginning of the last century who approached medieval music as if it were no different from music of the nineteenth century But *Medieval Music and the Art of Memory* deftly demonstrates that the fact that a piece was written down does not necessarily mean that it was conceived and transmitted in writing Busse Berger s new model one that emphasizes the interplay of literate and oral

composition and transmission deepens and enriches current understandings of medieval music and opens the field for fresh interpretations **The Saturday Review of Politics, Literature, Science and Art** ,1877 **Funk & Wagnalls New Standard Dictionary of the English Language** ,1936 **Notes and Queries** ,1874 **Notes and Queries: a Medium of Inter-communication for Literary Men, Artists, Antiquaries, Genealogists, Etc** ,1895 **The Woman's World ...**
