Life Orientation Grade 1memo 2013:

Rugged Individualism and the Misunderstanding of American Inequality Lawrence M. Eppard, Mark Robert Rank, Heather E. Bullock, 2020-02-20 *Rugged Individualism and the Misunderstanding of American Inequality* explores and critiques the widespread perception in the United States that one's success or failure in life is largely the result of personal choices and individual characteristics. As the authors show, the distinctively individualist ideology of American politics and culture shapes attitudes toward poverty and economic inequality in profound ways, fostering social policies that de-emphasize structural remedies. Drawing on a variety of unique methodologies, the book synthesizes data from large-scale surveys of the American population and it features both conversations with academic experts and interviews with American citizens intimately familiar with the consequences of economic disadvantage. This mixture of approaches gives readers a fuller understanding of skeptical altruism, a concept the authors use to describe the American public's hesitancy to adopt a more robust and structurally oriented approach to solving the persistent problem of economic disadvantage.

Healthy at Work Markus Wiencke, Mirella Cacace, Sebastian Fischer, 2016-08-26 This book aims at exploring the link between corporate and organizational culture, public and private policies, leadership and managerial skills or attitudes, and the successful implementation of work-related healthcare in Europe. Therefore, it brings together a wide range of empirical and theoretical contributions from occupational health management, psychology, medicine, economics, and organizational sociology to address the question of how to sustainably promote occupational health. Such important questions are explored as: What aspects of a corporate culture can be associated with health issues? How does leadership style affect the health of employees? How are health-related decisions in the workplace affected by the political environment? To what extent are interventions influenced by corporate culture, leadership, and public policy? How can we make such interventions sustainable?

Handbook of LGBT Elders Debra A. Harley, Pamela B. Teaster, 2015-08-05 This groundbreaking resource presents a wealth of findings and perspectives previously unseen in the LGBT literature. Its focus on psychological, sociopolitical, and care delivery issues affecting LGBT elders reveals both the nuanced interplay between diverse sources of identity and multiple sources of stigma and discrimination. Specific chapters highlight challenges and resiliencies impacting subpopulations, e.g., racial groups, veterans, immigrants, examine employment and advocacy issues, discuss later life concerns in context, and offer guidelines for relevant ethical practice. Contributors represent a wide range of fields from psychiatry and gerontology to public health and public policy, reflecting the scope and needs of this diverse and complex population. Among the topics in the Handbook: Family relationships of older LGBT adults; The intersection of identities: race, age, sexuality, and care network; Bisexuality: an invisible community among LGBT elders; Implications of the Supreme Court ruling on same-sex marriage; No money, no work, and you're old; Disabilities among LGBT elders; responses of medicine, public health, rehabilitation, and social work. *Handbook of LGBT Elders* is an essential reference for mental health professionals, psychologists, and social workers who work with the LGBT

plastics chemicals and the scattered remnants of past industrial endeavour Second the need to experiment with diverse modes of representation with differently mediated technologies and modes of telling that from digital film platforms to children s non fiction writing expand our lexicon in terms of how it might become possible to narrate young people in and the Anthropocene Third the need to articulate different tools for working with young people in the Anthropocene Tools and technologies understood in this manner are modes of becoming attuned to and of making new configurations of human and non human new and pressing threats that weigh upon young people in visceral affective ways and new modes of speculating about and becoming responsible for futures human and more than human In this sense the contributions to the collection from scholars from the Anglo and non Anglosphere are framed by an urgency to develop and deploy innovative critical and disruptive theoretical and methodological tools and technologies to identify and explore the material temporal and conceptual challenges for children and young people and those who research in childhood and youth studies at this convergence
