*Advancing Africa's Sustainable Development* Alain L. Fymat, 2018-11-14 While many African countries lag behind the rest of the industrialised world in scientific and medical research and development the situation is progressively improving This is why the Society for the Advancement of Science in Africa was established to contribute to economic advancement and sustainability through science research education and innovation This book provides a selection of papers from the Advancement of Science in Africa s fourth annual conference The conference was held under the overarching theme of science technology and innovation in Africa with several important sub themes including but not limited to improving health research and disease surveillance education collaborating in research responding to epidemic diseases with high mortality in Africa and promoting women s interest in science careers The collection illustrates how although the chapter contributors come from various countries and universities representing their own academic research they all share a common interest in advancing science technology and innovation in Africa     [Sustainable Transformation in African Higher Education](#) Felix Maringe, Emmanuel Ojo, 2017-04-18 The book is a must read for policy makers academics university administrators and post graduate research students in the broad field of education and in higher education studies in particular The book brings together a wealth of information regarding the imperatives of transformation in Africa s higher education systems Not only do some of the chapters provide critical discussion about the conceptualisation of transformation the majority of the chapters

reflect on empirical evidence for transformation in diverse fields of mathematics science gender the training of doctoral students and the governance and management of universities This central theme of sustainable change and reform runs across the chapters of the book For students the book provides exemplars of practical research in higher education For scholars in higher education and policy makers specific issues for reform are identified and discussed *Sharing Higher Education's Promise beyond the Few in Sub-Saharan Africa* Peter Darvas, Shang Gao, Yijun Shen, Bilal Bawany, 2017-11-15

Despite a spectacular expansion of the higher education sector in Sub Saharan Africa the supply of tertiary education has generally failed to keep pace with demand and the region continues to lag all other regions in terms of access to tertiary education This is in part a consequence of deeply entrenched patterns of inequitable access to higher education and the perpetuation of what researchers refer to as elite systems To date access to tertiary education in Sub Saharan Africa has unduly benefitted students drawn from the region s wealthiest households and overall enrollment remains disproportionately male and metropolitan These factors stifle the catalytic potential of higher education corroding its potential for driving economic growth and sustaining poverty reduction Instead patterns of access to tertiary education have generally reinforced and reproduced social inequality instead of eroding its pernicious social and economic effects This report aims to inform an improved understanding of equity in tertiary enrollment in Sub Saharan African countries and to examine the extent to which inequity functions as a bottleneck inhibiting the ability of African universities to effectively drive improvements in overall quality of life and economic competitiveness In our survey of the evidence we also aim to identify which policies most effectively address the challenge of promoting equity of access in SSA tertiary education systems In order to achieve these objectives the report collects generates and analyzes empirical evidence on patterns of equity examines the underlying causes of inequity and evaluates government policies for addressing inequity **Yearbook of International Organizations 2014-2015 (Volume 3)** Union Of International Associations, Union of International Associations, 2014-08-20
