answering the question Why Cost Management It answers this question by providing cost management tools and techniques needed to support an organization s competitiveness improve its performance and help the organization accomplish its strategy The text is written to help students understand the broader role of cost accounting in helping an organization succeed and not just the measurement of costs While the text does include coverage of traditional costing topics e g job order costing process costing service department cost allocations and accounting for joint and by products its primary strength is the linkage of these topics as well as more contemporary topics to an organization s strategy

Target Costing and Value Engineering Robin Cooper,2017-10-19 What would happen if everyone in your company followed a disciplined approach to cost reduction Go ahead imagine it What would it look like How can it be done The answer smart cost management Effective cost management must start at the design stage As much as 90 95% of a product s costs are added in the design process That is why effective cost management programs focus on design and manufacturing The primary cost management method to control cost during design is a combination of target costing and value engineering Target Costing Objectives Identify the cost at which your product must be manufactured at if it is to earn its profit margin at its expected target selling price Break the target cost down to its component level and have your suppliers find ways to deliver the components they sell you at the set target prices while still making adequate returns Value Engineering The connection to function An organized effort and team based approach to analyze the functions of goods and services that the design stage and find ways to achieve those functions in a manner that allows the firm to meet its target costs The result Added value for your company development costs on line with added value for your company development costs on line with selling prices and added value for your customer higher quality products that meet possibly even exceed customer expectations

Cost Management: Strategies for Business Decisions Ronald Hilton,Michael Maher,Frank Selto,2007-09-04 Hilton Maher Selto HMS is for instructors who want to teach students to manage costs and not just account for costs HMS maintains that Costs don t just happen and with a pro active approach toward costs managers who understand cost implications as well as accountants can add value to an organization Hilton Maher Selto focuses on having students learn to make decisions by the use of Cost Management Challenges in the chapter opener You re the Decision Maker boxes throughout each chapter and the You re the Decision Maker simulation on the text website

Designing Cost Management Systems to Support Business Decision-Making Pieter Buys,2021-07-19 This book illustrates the importance effective cost management systems in providing a supportive environment in which reliable and relevant management information can be generated Such a cost management system is only attainable if the importance of key business operational and stakeholder requirements are recognised within the organisational context In illustrating this importance this book provides several case studies as examples thereof The first two case studies focus on the engineering sector and illustrates the development of a cost management system in a water recycling context and the design of a budgetary system in a mining engineering context The remaining case studies focus on

the services sector including cost management systems for a digital technology services provider and a medical insurance services provider an alternative activity based costing approach for a public sector services provider and finally a re designed value stream for an automotive services provider Academic researchers and industry managers in the fields of management accounting and financial management as well as engineering and operations management will find value in the experiences described herein **Handbook of Management Accounting Research** Christopher S. Chapman,Anthony G.

Hopwood,Michael D. Shields,2011-09-14 Volume two of the Handbooks of Management Accounting Research consists of two groups of chapters The first draw together research that has focussed on particular management accounting practices The second set synthesise contributions to the literature that have been focussed within particular organisational contexts Volume two concludes with a review of research on how management accounting practice and research varies around the world Special pricing available if purchased as a set with Volume 1 Documents the scholarly management accounting literature Publishing both in print and online through Science Direct International in scope
