Music Apps for Musicians and Music Teachers Elizabeth C. Axford, 2015-02-19 In today's digital age learning and creating music has never been so easy and affordable. Anyone can enhance their musical knowledge, skills, and creativity with the multitude of music apps available. However, sifting through thousands of music apps in the Apple App Store and Google Play can be a daunting task for any musician or music instructor. But not anymore. Having spent countless hours researching the most interesting, useful, educational, fun, and easy to use music apps, Elizabeth C. Axford in *Music Apps for Musicians and Music Teachers* surveys the landscape of music-related apps for both iOS and Android mobile devices, including tablets and smartphones. *Music Apps for Musicians and Music Teachers* lists hundreds of music-related apps organized by category, including singing, musical instruments, music theory and composition, songwriting, improvisation, recording, evaluating music performances, listening to music, music history and literature, music appreciation, and more. App developers are listed with each app, including links to their websites for updates and support. The book's sections and chapters align with the newly revised National Standards for Music Education released in 2014 by the National Association for Music Education. Suggested activities for educators are provided, as well as key terms and a bibliography. *Music Apps for Musicians and Music Teachers* is for anyone interested in music, whether hobbyist or professional. It enhances the ability to learn on the go by offering musicians, music students, and music instructors a list of the most useful music apps available. **Cakewalk Sonar Plug-Ins**

**& PC Music Recording, Arrangement, and Mixing** Roman Petelin, Yury Petelin, 2002 This one-stop reference for musicians and computer music hobbyists includes the most complete information on the latest version of Cakewalk Sonar 2.0 and plug-ins used with it. The Saga of Hawkwind Carol Clerk, 2009-11-04 Hawkwind emerged in 1969 from Ladbroke Grove, the heartland of London's counterculture, to become a people's band supported by bikers and hippies alike as they staged free gigs, benefits, and protests and welcomed the involvement of any number of creative people: writers, poets, dancers from within their community. They insisted upon all these things even with the Top Three success of 1972's enduring anthem "Silver Machine" and the pioneering Space Ritual projects. They have had more line-up changes than their only remaining founder member Dave Brock can remember. Motorhead's Lemmy and legendary Cream drummer Ginger Baker were just two of the musicians sacrificed along the way as the band went head-to-head with the police, customs, the taxman, and each other. With the memories of many of those who were there, this is the story of an extraordinary 35-year career: the music and the band whose fans still loyally turn out for conventions and are rewarded with private festivals set against a background of sex, drugs, madness, writs, rage, and revenge. Guitar Makers Kathryn Marie Dudley, 2014-11-10 It whispers, it sings, it rocks, and it howls. It expresses the voice of the folk, the open road, freedom, protest, and rebellion, youth and love. It is the acoustic guitar. And over the last five decades it has become a quintessential American icon. Because this musical instrument is significant to so many in ways that are emotional, cultural, and economic, guitar making has experienced a renaissance in North America.

both as a popular hobby and for some a way of life In *Guitar Makers* Kathryn Marie Dudley introduces us to builders of artisanal guitars their place in the art world and the specialized knowledge they've developed Drawing on in depth interviews with members of the lutherie community she finds that guitar making is a social movement with political implications Guitars are not simply made they are born Artisans listen to their wood respond to its liveliness and strive to endow each instrument with an unforgettable tone Although professional luthiers work within a market society Dudley observes that their overriding sentiment is passion and love of the craft Guitar makers are not aiming for quick turnover or the low cost reproduction of commodities but the creation of singular instruments with unique qualities and face to face transactions between makers buyers and dealers are commonplace In an era when technological change has pushed skilled artisanship to the margins of the global economy and in the midst of a capitalist system that places a premium on ever faster and more efficient modes of commerce Dudley shows us how artisanal guitar makers have carved out a unique world that operates on alternative more humane and ecologically sustainable terms
