Journal Citation Report 2004:

Scientific Scholarly Communication Pali U. K. De Silva, Candace K. Vance, 2017-01-18 This book critically examines the historical developments and current trends in the scientific scholarly communication system issues and challenges in scientific scholarly publishing and scientific data sharing implications and debates associated with the influence of intellectual property rights on scientific information sharing and new trends related to peer reviewing and measuring the impact of scientific publications Based on thorough examination of published literature the book illustrates the involvement of many stakeholders scientists science educators university administrators government entities research funders and other interested parties in this complex and dynamic system The discussion highlights the roles these stakeholders have to play individually and collaboratively to help transform the future of the scientific scholarly communication system **Social Information Retrieval Systems: Emerging Technologies and Applications for Searching the Web Effectively** Goh, Dion, Foo, Schubert, 2007-10-31 The wealth of information accessible on the Internet has grown exponentially since its advent This mass of content must be systemically sifted to glean pertinent data and the utilization of the collective intelligence of other users or social information retrieval is an innovative emerging technique Social Information Retrieval Systems Emerging Technologies covering topics such as social tagging collaborative querying social network analysis subjective relevance judgments and collaborative filtering Answering the increasing demand for authoritative resources on Internet technologies this Premier Reference Source will make an indispensable addition to any library collection **Citation Analysis in Research Evaluation** Henk F. Moed, 2006-03-30 This book is written for members of the scholarly research community and for persons involved in research evaluation and research policy More specifically it is directed towards the following four main groups of readers All scientists and scholars who have been or will be subjected to a quantitative assessment of research performance using citation analysis Research policy makers and managers who wish to become conversant with the basic features of citation analysis and about its potentialities and limitations Members of peer review committees and other evaluators who consider the use of citation analysis as a tool in their assessments Practitioners and students in the field of quantitative science and technology studies informetrics and library and information science Citation analysis involves the construction and application of a series of indicators of the impact influence or quality of scholarly work derived from citation data i e data on references cited in footnotes or bibliographies of scholarly research publications Such indicators are applied both in the study of scholarly communication and in the assessment of research performance The term scholarly comprises all domains of science and scholarship including not only those fields that are normally denoted as science the natural and life sciences mathematical and technical sciences but also social sciences and humanities **People and Computers XIX - The Bigger Picture** Tom McEwan, Jan Gulliksen, David Benyon, 2007-12-20 As a new medium for questionnaire delivery the Internet has the potential to revolutionize the survey process Online Web based questionnaires

provide several advantages over traditional survey methods in terms of cost speed appearance flexibility functionality and usability Bandilla et al 2003 Dillman 2000 Kwak they can incorporate links and it is possible to encode difficult skip patterns making such patterns virtually invisible to respondents Despite this and the emergence of numerous tools to support online questionnaire creation current electronic survey design typically replicates the look and feel of pap based questionnaires thus failing to harness the full power of the electronic survey medium A recent environmental scan of online questionnaire design tools found that little if any support is incorporated within these tools to guide questionnaire design according to best practice Lumsden Morgan 2005 This paper briefly introduces a comprehensive set of guidelines for the design of online questionnaires It then focuses on an informal observational study that has been conducted as an initial assessment of the value of the set of guidelines as a practical reference guide during online questionnaire design

2 Background Online questionnaires are often criticized in terms of their vulnerability to the four standard survey error types namely coverage non response sampling and measurement errors

Education Research On Trial Pamela B. Walters, Annette Lareau, Sheri Ranis, 2009-01-13 Many have attacked education research as failing to meet standards of scientific rigor The thoughtful essays in this book offer an analysis of this debate on the failings of education research
