Life Orientation 2013 Paper Grade11:

Social Justice and Transformative Learning Saundra M. Tomlinson-Clarke, Darren L. Clarke, 2016-03-10 The similarities between the United States and South Africa with respect to race power oppression and economic inequities are striking and a better understanding of these parallels can provide educational gains for students and educators in both countries Through shared experiences and perspectives this volume presents scholarly work from U S and South African scholars that advance educational practice in support of social justice and transformative learning It provides a comprehensive framework for developing transformational learning experiences that facilitates leadership for social justice and a deeper understanding of the factors influencing personal national and global identity Towards a holistic approach to support learners at risk of interrupted development Macalane J. Malindi, Johnnie Hay, Thabo Makhalemele, 2024-02-23 The COVID 19 pandemic and the restrictions that came with it led to unprecedented disruptions in learner development and put them at risk of poor developmental outcomes It is thus important that the extent of the disruption on their development and the support needs of learners be investigated Researching the impact of the disruption should focus on holistic development In this book the authors use multiple research approaches and methods of gathering data in their respective fields to examine the impact of the disruption and determine the support needs of learners Data gathered through the different methods are processed and findings are presented The findings have implications for both practice and future research in the fields of inclusive education learner support educational psychology movement education Life Orientation and curriculum development

Climate Change, Energy, Sustainability and Pavements Kasthurirangan Gopalakrishnan, Wynand JvdM Steyn, John Harvey, 2014-09-25 Climate change energy production and consumption and the need to improve the sustainability of all aspects of human activity are key inter related issues for which solutions must be found and implemented quickly and efficiently To be successfully implemented solutions must recognize the rapidly changing socio techno political environment and multi dimensional constraints presented by today s interconnected world As part of this global effort considerations of climate change impacts energy demands and incorporation of sustainability concepts have increasing importance in the design construction and maintenance of highway and airport pavement systems To prepare the human capacity to develop and implement these solutions many educators policy makers and practitioners have stressed the paramount importance of formally incorporating sustainability concepts in the civil engineering curriculum to educate and train future civil engineers well equipped to address our current and future sustainability challenges This book will prove a valuable resource in the hands of researchers educators and future engineering leaders most of whom will be working in multidisciplinary environments to address a host of next generation sustainable transportation infrastructure challenges This book proposes a broad detailed overview of the actual scientific knowledge about pavements linked to climate change energy and sustainability at the international level in an original multidimensional multi effects way By the end the reader will be
