Analysis for the Investor BC Low, 2014-09-01 Overview A book on Technical Analysis written for the Investor Yes it is possible to use technical analysis for investing not just trading Technical analysis has always been seen as a tool for short term trading rather than investing Through this book the author will share with investors an original approach to technically define the trend for the various time frames Daily Weekly Monthly and so on The book will reveal the consistent relationship between the time frames It explains which time frame dictates a market s behavior and shows how to invest better with the knowledge of the larger time frames The book s second innovation is to help investors integrate technical trend timing and price indicators for market entry and exit This approach integrates signals from various technical tools rather than rely on signals from a single indicator whether it be timing or price for entry and exit This integrated approach has been effectively used by the author for investing for many years Learn Time tested techniques to define a market s trend To integrate trend timing and time indicators for optimal market entry and exit in trending and non trending market environments About the two way and three way relationships between monthly weekly and daily time frames How to invest better with the knowledge of the relationship of multiple time frames of markets About the author BC Low CMT has been a teacher cum practitioner in Technical Analysis since the 1980s Low has published in *Technical Analysis of Stocks Commodities* in September 2010 and

November 2012 He has delivered many seminars to various financial institutions in Singapore and abroad He was the President of the Singapore Technical Analysts Traders Society STATS in 2011 13 Formerly a Senior Lecturer in Singapore Polytechnic he developed and taught two modules of Technical Analysis from 1992 to 2011 He was the technical analyst at Merrill Lynch International Bank and currently Low is President of Technical Analysis Consultancy Singapore
