Weaving a Malawi Sunrise Roberta Laurie, 2015-11-23 When you educate a girl you educate a nation Malawian saying The women of Malawi like many other women in developing countries struggle to find their way out of poverty and build a better life for themselves and their families Weaving a Malawi Sunrise tells the story of Memory Chazeza's quest to get an education and to build a school for young women Roberta Laurie was one of many who helped Memory realize her vision of seeing young girls become strong and independent women who could care for themselves and their future families During her time in Malawi Laurie met several other women each of whom had a story of her own Laurie combines these personal accounts with detailed information about the country's underlying social and political context Readers interested in Africa global affairs women's studies development and international education will give high marks to Weaving a Malawi Sunrise

Geometry Driven Statistics Ian L. Dryden, John T. Kent, 2015-07-22 A timely collection of advanced original material in the area of statistical methodology motivated by geometric problems dedicated to the influential work of Kanti V Mardia This volume celebrates Kanti V Mardia's long and influential career in statistics A common theme unifying much of Mardia's work is the importance of geometry in statistics and to highlight the areas emphasized in his research this book brings together 16 contributions from high profile researchers in the field Geometry Driven Statistics covers a wide range of application areas including directional data shape analysis spatial data climate science fingerprints image analysis computer vision and bioinformatics The book will appeal to statisticians and others with an interest in data motivated by geometric considerations Summarizing the state of the art examining some new developments and presenting a vision for the future Geometry Driven Statistics will enable the reader to broaden knowledge of important research areas in statistics and gain a new appreciation of the work and influence of Kanti V Mardia

Pathways to Prosperity in Rural Malawi Andrew Dabalen, Alejandro de la Fuente, Aparajita Goyal, Wendy Karamba, Tomomi Tanaka, 2017-07-06 By most accounts rural Malawi has lacked dynamism in the past decade Growth has been mostly volatile in large part due to unstable macroeconomic fundamentals evidenced by high inflation fiscal deficits and interest rates When rapid economic growth has materialized the gains have not always reached the poorest Poverty remains high and the rural poor face significant challenges in consistently securing enough food Several factors contribute to stubbornly high rural poverty They include a low productivity and non diversified agriculture macroeconomic and recurrent climatic shocks limited non farm opportunities and low returns to such activities especially for the poor and poor performance from some of the prominent safety net programs The Report proposes complementary policy actions that offer a possible path for a more dynamic and prosperous rural economy The key pillars of this comprise macroeconomic stability increased productivity in agriculture faster urbanization better functioning safety nets and more inclusive financial markets Some recommendations call for a reorientation of existing programs such as the Malawi Farm Input Subsidy Program FISP and the Malawi Social Action Fund Public Works Program MASAF PWP Others identify

promising new areas of intervention such as the introduction of digital IDs and biometric technologies to enhance the reach of mobile banking and deepen financial inclusion Finally and importantly the report recommends the scaling up of investments on girls secondary education to curb early child marriage and early child bearing among adolescents This will empower women at home and work and bend the trajectory of fertility rates in rural areas in order to boost human development and reduce poverty
