MUELLER CLIMATROL AIR CONDITIONING FURNACE

Enclosed in the handsome, ultra-modern cabinet are the gas-fired heating unit, the fan, automatic humidifier and air filters, together with controls necessary for completely automatic operation.

Mueller "Heat Speeder" sections are constructed of two half-sections, die-stamped from copper-bearing steel sheets, cold-rolled to Mueller specifications. The two halves are electrically seam-welded into a one-piece, gas-tight, air pressure-tested section. This design secures a rapid and high rate of heat transfer, and eliminates traps and pockets.

Each section has individual burners, specially designed to co-ordinate with the convection chamber in obtaining complete combustion, uniform flame distribution and quiet operation. A safety shutoff on each burner reduces the escape of unburned gas impossible.

The powerful Mueller Fan draws return air through the filters, then delivers the filtered, humidified, warm air uniformly to all rooms. Filters of ample area to do a thorough job of cleaning the air are provided. Controlled humidity is supplied automatically by the Mueller Spray Type Humidifier when humidifier control is not desired, humidity is supplied by the Mueller Automatic Air Moistener.

Controls to suit installation requirements are available. They may include plain or clock type room thermostats, or modulating gas control which secures continuous heat flow, regulated to weather conditions, and turns the gas flame up or down as required to maintain the desired temperature.

SERIES "E" GAS ERA STEEL FURNACE

The distinctive advantages of gas heating—cleanliness, dependability, convenience, quiet operation—are achieved in the Mueller Series "E" Gas Era Furnace.

The heating unit consists of the required number of "Heat Speeder" steel sections to handle the heating requirements. These sections, which are the same as in the Mueller Climatrol, give instant heat response, maximum service, low operating cost, and produce no temperature overrun. The

humidity is supplied by Mueller automatic air moistener.

Series "E" furnaces are of multiple unit construction, permitting the assembly of the number of sections required for each job. These furnaces may be installed with Climatrol Fan-Filter units as forced air systems, or for gravity operation. Climatrol units are illustrated and described on page 5.
