Life Orientation Question Paper 2014 September:

Computational Methods for Communication Science Wouter van Atteveldt, Tai-Quan Peng, 2021-03-29 Computational Methods for Communication Science showcases the use of innovative computational methods in the study of communication. This book discusses the validity of using big data in communication science and showcases a number of new methods and applications in the fields of text and network analysis. Computational methods have the potential to greatly enhance the scientific study of communication because they allow us to move towards collaborative large N studies of actual behavior in its social context. This requires us to develop new skills and infrastructure and meet the challenges of open, valid, reliable, and ethical big data research. This volume brings together a number of leading scholars in this emerging field contributing to the increasing development and adaptation of computational methods in communication science. The chapters in this book were originally published as a special issue of the journal *Communication Methods and Measures*. Unchanging Witness S. Donald Fortson, Rollin G. Grams, 2016-02-01 In *Unchanging Witness* Donald Fortson and Rollin Grams articulate the consistent orthodox view historically held everywhere, always and by all, by presenting primary sources throughout Christian history and by interpreting the biblical texts in their cultural contexts. *A History of Human Rights Society in Singapore* Jiyoung Song, 2017-05-08 To celebrate Singapore's fiftieth anniversary for its independence from Malaysia in 2015, 35 students, academics, and activists came together to discuss and write about pioneering Singaporean human rights activists and their under-reported stories in Singapore. The city-state is known for its remarkable economic success while having strict laws on individual freedom in the name of national security, public order, and racial harmony. Singapore's tough stance on human rights, however, does not negate the long and persistent existence of a human rights society that is little known to the world until today. This volume, composed of nine distinctive chapters, records a history of human rights activists, their campaigns, main contentions with the government, survival strategies, and other untold stories in Singapore's first 50 years of state building. Yearbook of International Organizations 2014-2015 (Volume 4) Union Of International Associations, Union of International Associations, 2014-09-17 The Yearbook of International Organizations provides the most extensive coverage of non-profit international organizations currently available. Detailed profiles of international non-governmental and intergovernmental organizations (IGO) collected and documented by the Union of International Associations can be found here. In addition to the history, aims, and activities of international organizations with their events, publications, and contact details, the volumes of the Yearbook include networks between associations, biographies of key people involved, and extensive statistical data. Providing both an international organizations and research bibliography, Volume 4 cites over 46,000 publications and information resources supplied by international organizations and provides nearly 18,000 research citations under 40 subject headings. This volume also includes a research bibliography on international organizations and transnational associations. **The State, Ulama and Islam in Malaysia and Indonesia** Norshahril Saat, 2025-10-01 The Suharto 1966

98 government of Indonesia and the Mahathir 1981 2003 government of Malaysia both launched Islamisation programmes upgrading and creating religious institutions The author argues that while generally ulamas or religious teachers had to support state ideologies they sometimes succeeded in capturing the state by influencing policies in their favour The author builds his argument on strong fieldwork data especially interviews and he engages in critical discussion of comparative politics paradigms and the concept of capture *Forced Migration in the Feminist Imagination* Anna Ball,2021-09-21

Forced Migration in the Feminist Imagination explores how feminist acts of imaginative expression community building scholarship and activism create new possibilities for women experiencing forced migration in the twenty first century Drawing on literature film and art from a range of transnational contexts including Europe the Middle East Central America Australia and the Caribbean this volume reveals the hitherto unrecognised networks of feminist alliance being formulated across borders while reflecting carefully on the complex politics of cross cultural feminist solidarity The book presents a variety of cultural case studies that each reveal a different context in which the transcultural feminist imagination can be seen to operate from the maternal feminism of literary journalism confronting the European refugee crisis to Iran s female film directors building creative collaborations with displaced Afghan women and from artists employing sonic creativities in order to listen to women in U K and Australian detention to LGBTQ poets and video artists articulating new forms of queer feminist community against the backdrop of the hostile environment This is an essential read for scholars in Women s and Gender Studies Feminist and Postcolonial Literary and Cultural Studies and Comparative Literary Studies as well as for those operating in the fields of Gender and Development Studies and Forced Migration Studies *The Perennials* Mauro F.
