Culture and Ideology under the Seleukids Eva Anagnostou-Laoutides, Stefan Pfeiffer, 2022-01-19 The volume offers a timely re appraisal of Seleukid cultural dynamics While the engagement of Seleukid kings with local populations and the issue of Hellenization are still debated a movement away from the Greco centric approach to the study of the sources has gained pace Increasingly textual sources are read alongside archaeological and numismatic evidence and relevant near eastern records are consulted Our study of Seleukid kingship adheres to two game changing principles 1 We are not interested in judging the Seleukids as strong or weak whether in their interactions with other Hellenistic kingdoms or with the populations they ruled 2 While appreciating the value of the social imaginaries approach Stavrianopoulou 2013 we argue that the use of ethnic identity in antiquity remains problematic Through a pluralistic approach in line with the complex cultural considerations that informed Seleukid royal agendas we examine the concept of kingship and its gender aspects tensions between centre and periphery the level of acculturation intended and achieved under the Seleukids the Seleukid Ptolemaic interrelations As rulers of a multi cultural empire the Seleukids were deeply aware of cultural politics

Before Writing, Vol. I Denise Schmandt-Besserat,1992 Before Writing gives a new perspective on the evolution of communication It points out that when writing began in Mesopotamia it was not as previously thought a sudden and spontaneous invention Instead it was the outgrowth of many thousands of years worth of experience at manipulating symbols In Volume I From Counting to Cuneiform Denise Schmandt Besserat describes how in about 8000 B C coinciding with the rise of agriculture a system of counters or tokens appeared in the Near East These tokens small geometrically shaped objects made of clay represented various units of goods and were used to count and account for them The token system was a breakthrough in data processing and communication that ultimately led to the invention of writing about 3100 B C Through a study of archaeological and epigraphic evidence Schmandt Besserat traces how the Sumerian cuneiform script the first writing system emerged from a counting device In Volume II A Catalog of Near Eastern Tokens Schmandt Besserat presents the primary data on which she bases her theories These data consist of several thousand tokens catalogued by country archaeological site and token types and subtypes The information also includes the chronology stratigraphy museum ownership accession or field number references to previous publications material and size of the artifacts Line drawings and photographs illustrate the various token types

Aztec and Maya Myths Karl Taube,1994-01-01 The myths of the Aztec and Maya derive from a shared Mesoamerican cultural tradition This is very much a living tradition and many of the motifs and gods mentioned in early sources are still evoked in the lore of contemporary Mexico and Guatemala Professor Taube discusses the different sources for Aztec and Maya myths The Aztec empire began less than 200 years

before the Spanish conquest and our knowledge of their mythology derives primarily from native colonial documents and manuscripts commissioned by the Spanish. The Maya mythology is far older and our knowledge of it comes mainly from native manuscripts of the Classic period over 600 years before the Spanish conquest. Drawing on these sources as well as nineteenth and twentieth century excavations and research including the interpretation of the codices and the decipherment of Maya hieroglyphic writing, the author discusses among other things the Popol Vuh myths of the Maya, the flood myth of Northern Yucatan and the Aztec creation myths. The Hastings Law Journal, 2010 **Chinese Myths** Anne Birrell, 2000

Anne Birrell has translated narratives drawn from over a 100 classical texts in her work on various aspects of Chinese mythology and here she introduces a selection of them to the general reader.
