Honest Weight Bob Terry, 2000-05-24 Honest Weight is the 20th century story of Toledo Scale beginning with their fight in the first decade for weights and measures laws to outlaw dishonest scales In narrative form it tells the living history of the company beginning with the founder after he was dramatically fired by National Cash Register Company Henry Theobald then started a scale and cash register company to compete with his old boss the legendary John Patterson of NCR It s the story of the inventors leaders craftsmen and technical breakthroughs beginning in the first year of the 20th century up to current times Included is the story of the innovative sales techniques developed by Theobald that led to tight fisted merchants being willing to spend four and five times as much for a Toledo No Springs Honest Weight scale than for the scale it replaced This led to Toledo becoming the best known scale brand in the nation It includes the story of how a plastic came to be developed for Toledo Scale under the leadership of the company s second president Hubert Bennett that led him to establish a separate wholly owned company This company Plaskon became the largest plastic company in the United States for a brief time It tells of Toledo Scale s World War II contributions in which the company played a top secret part in the production of the Norden bombsight and the atomic bomb The story includes quotations from both retired company executives and current employees It includes information obtained from an unpublished factual manuscript covering the company s first 50 years other company archives and the Toledo Blade A dozen historical photos are displayed which include the first DeVilbiss computing scale a Toledo Cash Register and a Phinney scale which was the first patented computing scale A few Phinney scales were manufactured in 1870 Since Toledo Scale couldn t locate one to prove they were actually manufactured they lost a huge lawsuit to Dayton Scale that almost broke the company Also shown is a photo of Norman Bel Geddes 1929 30 radical designs of a new factory and plant campus for Toledo Scale never built due to the depression The story includes the transition to electronic scales begun by the company s third president Harris McIntosh This transition was completed in the final quarter of the century And finally the human story that resulted from the evolution of several different ownership s is told until just a few years ago Toledo Scale disappeared as a separate brand and was merged into Mettler Toledo Inc

**The Tale of the Scale : An Odyssey of Invention** Robert F. Wagner Graduate School of Public Service New York University Solly Angel Adjunct Professor of Urban Planning, 2004-02-05 In the mid 1980s Solly Angel had a technological mini vision He saw in his mind s eye a quarter inch thick personal scale weighing a pound a travel scale and he decided to make it a reality to bring it to market The Tale of the Scale is a rare first person account of the process of invention and design as it unfolds in the remaking of the familiar bathroom scale It is rare because inventors seldom have the inclination to articulate their thought processes and to recount their experiences in great detail Written by an inventor the book stands apart from recent books about inventors Angel an urban planner by profession had no mechanical skills as he embarked on his journey The Tale records his transformation over the course of a decade from a bungling ignoramus to an

expert on thin scales Readers know as much about scales or about invention for that matter as Angel does at the beginning of the journey Listening to Angel s unfolding story they learn about the intricacies of invention and design as Angel finds out about them The Tale of the Scale is truly an odyssey of invention The pursuit of the thin scale takes readers to fascinating places from Bangkok to Rolling Hills California from Groningen in the Netherlands to Murrhardt in Germany and from New York to Tokyo But the places Angel explores are not only visually different They are realms of knowledge inhabited by people with diverse yet complementary outlooks on the invention process engineers designers lawyers product development specialists corporate functionaries and friends who philosophize on the deeper meanings of one s life pursuits **Meat & Poultry** ,2003
