## **Grade 5 Reading Comprehension Worksheet**

### **Bird Legs Nelson**

By Joyce Hansen

Read the story. Then answer the questions.

As Nelson walked to Queensbridge Middle School he vowed that that he'd put an end to the torment. Big Reggie, known as Big, was the tormentor in school; he had a big mouth also. With Nelson, it started when Big saw him in gym class wearing shorts. "What's your name? Bird Legs Nelson." The name stuck to Bird Legs by popular demand. The bell rang, and the boys headed for the gym. They quickly changed into their gym shorts and Nelson knew that the insult was on its way when Big looked him. "Hey, Bird Legs, I know why your head's so big and your legs so skinny," Big fired first. Nelson walked out of the locker room into the gym without saying a word. Nelson was a superb basketball player. He'd practiced his bank shots and could bounce the ball off the backboard at an angle that made the ball drop right into the basket. "I want to go on the other team, coach," he told the gym teacher. Nelson played like a champion. After the game, the teacher locked the door. One of the players realized, "Hey, we're locked out here in the school yard," he said. Nelson saw a space though between the locked gates and called the others. He easily slipped through the opening. Big squeezed through the opening too, but he got stuck. "Hey, man, get me some help." Tears rolled down Big's face. Nelson waved goodbye. "Lose some weight." Nelson stopped then gave one, last hard push and Big was free. Big rubbed his leg and limped to the back door. Nelson owned the name, Bird Legs. When he was on the basketball court during games kids from his school yelled, Go, Bird Legs! Go Bird Legs!

Answer each question.

1. Who was Big Reggie?
2. Was Nelson a superb basketball player?
3. What did happen when the game was over?
4. Who did get stuck and how Nelson helped him?
5. Did Nelson own the name 'Bird Legs'?

Competence Assessment in Education Detlev Leutner, Jens Fleischer, Juliane Grünkorn, Eckhard Klieme, 2017-03-27 This book addresses challenges in the theoretically and empirically adequate assessment of competencies in educational settings. It presents the scientific projects of the priority program Competence Models for Assessing Individual Learning Outcomes and Evaluating Educational Processes which focused on competence assessment across disciplines in Germany. The six year program coordinated 30 research projects involving experts from the fields of psychology, educational science and subject specific didactics. The main reference point for all projects is the concept of competencies which are defined as context specific cognitive dispositions that are acquired and needed to successfully cope with certain situations or tasks in specific domains. Koeppen et al 2008 p 62. The projects investigate different aspects of competence assessment. The primary focus lies on the development of cognitive models of competencies complemented by the construction of psychometric models based on these theoretical models. In turn the psychometric models constitute the basis for the construction of instruments for effectively measuring competencies. The assessment of competencies plays a key role in optimizing educational processes and improving the effectiveness of educational systems. This book contributes to this challenging endeavor by meeting the need for more integrative interdisciplinary research on the structure levels and development of competencies. **Maryland Test**
