Multicultural Challenges And Sustainable Democracy In Europe And East Asia:

Multicultural Challenges and Sustainable Democracy in Europe and East Asia N. Kim, 2014-10-29 This collection examines the current stage of multicultural challenges and their influence on democracy in 12 countries of Europe and East Asia Contributors draw out the differences between European and East Asian approaches to universalizing locality and localizing global norms regarding human rights and democratic individuality

Narratives of Globalization Julian C H Lee, 2015-10-16 Globalization can sometimes seem like an abstract concept an unconscious aspect of our everyday existence What impact does it have on the reality of our daily lives How does it shape our experiences perspectives and identities Narratives of Globalization explores how a range of key ideas in the study of globalization are made manifest in the lives of people all over the world Each chapter explores a key theme in globalization studies that is explored through a narrative that draws on the contributors own personal experience It draws together a collection of experiences from across the globe including Chinese migration to Australia the influence of the internet on education and the popularity of K pop These personal perspectives on culture identity development and politics attempt to better understand contemporary issues within the global frame and illustrate how ordinary people can engage with and influence processes of globalization

Punks, Monks and Politics Julian C H Lee, Marco Ferrarese, 2016-11-23 Authenticity is much sought after being described as inauthentic is an insult or an embarrassment Being authentic suggests that a given behaviour or performance is reflective of a trueness or genuineness to one's identity From a social science perspective there is sometimes scepticism expressed about the historical faithfulness of purported behaviours such as when something is referred to as an invented tradition However what can be overlooked in such criticisms is an array of sociological and existential dynamics that are at play when authenticity is striven for Likewise able to be overlooked is where the location of that authenticity is ostensibly founded sometimes the trueness of the behaviour is located in local traditions that reach back into time immemorial sometimes in a universal human and shared sameness and sometimes with regard to a global phenomenon Punks Monks and Politics explores the idea of authenticity as enacted in Thailand Indonesia and Malaysia The collective contributions reveal the sometimes contradictory ways in which the dynamics of authenticity its pursuit its deployment its politics play out in very different contexts Whether authenticity inheres in the local or the global amongst the majority or within a subculture on the outside of or within people or in the past or the present authenticity is nevertheless valued

The Future Is Asian Parag Khanna, 2019-02-05 In the 19th century the world was Europeanized In the 20th century it was Americanized Now in the 21st century the world is being Asianized The Asian Century is even bigger than you think Far greater than just China the new Asian system taking shape is a multi civilizational order spanning Saudi Arabia to Japan Russia to Australia Turkey to Indonesia linking five billion people through trade finance infrastructure and diplomatic networks that together represent 40 percent of global GDP China has taken a lead in building the new Silk Roads across Asia but it will not lead it alone Rather

Asia is rapidly returning to the centuries old patterns of commerce conflict and cultural exchange that thrived long before European colonialism and American dominance Asians will determine their own future and as they collectively assert their interests around the world they will determine ours as well There is no more important region of the world for us to better understand than Asia and thus we cannot afford to keep getting Asia so wrong Asia s complexity has led to common misdiagnoses Western thinking on Asia conflates the entire region with China predicts imminent World War III around every corner and regularly forecasts debt driven collapse for the region s major economies But in reality the region is experiencing a confident new wave of growth led by younger societies from India to the Philippines nationalist leaders have put aside territorial disputes in favor of integration and today s infrastructure investments are the platform for the next generation of digital innovation If the nineteenth century featured the Europeanization of the world and the twentieth century its Americanization then the twenty first century is the time of Asianization From investment portfolios and trade wars to Hollywood movies and university admissions no aspect of life is immune from Asianization With America s tech sector dependent on Asian talent and politicians praising Asia s glittering cities and efficient governments Asia is permanently in our nation s consciousness We know this will be the Asian century Now we finally have an accurate picture of what it will look like 金一山,2017 **Multicultural Challenges and Redefining Identity in East Asia** Dr Nam-Kook

Kim,2014-01-08 This book draws together a wide range of distinguished local scholars to discuss multiculturalism and the changing nature of social identity in East Asia Regional specialists review specific events and situations in China Korea Japan Thailand Vietnam Singapore Taiwan Malaysia Indonesia and the Philippines to provide a focus on life as it is lived at the local level whilst also tracing macro discourses on the national issues affected by multiculturalism and identity 金一山,2016

Jessica Almqvist,2005-09-12 This new book examines the relationship between culture and respect for human rights It departs from the oft made assumption that culture is closely linked to ideas about community Instead it reveals culture as a quality possessed by the individual with a serious impact on her ability to enjoy the rights and freedoms as recognised in international human rights law in meaningful and effective ways This understanding redirects attention towards a range of issues that have long been marginalised but which warrant a central place in human rights research and on the international human rights agenda Special attention is given to the circumstances induced by cultural differences between people and the

laws by which they are expected to live The circumstances are created by differing tools know how and skills cultural equipment diverse settlements on matters that are ultimately indifferent from the standpoint of cosmopolitan moral law adiaphora and conflicts having their source in conflicting doctrines ethical religious and philosophical addressing deep questions about the ultimate purpose of human life comprehensive doctrines Each of the circumstances shifts the focus with the aim of securing effective and adequate protection of individual freedom as societies become increasingly diversified in cultural terms and issues arise of access to laws and public institutions exemption from legal obligations for reasons of conscience fair resolution of conflicts having their source in differing ethical religious and philosophical outlooks and excuse for breach of law in case of involuntary ignorance
