## January 2014 International Paper C:

**The International Criminal Court and Africa** Charles Chernor Jalloh, Ilias Bantekas, 2017-10-06 Africa has been at the forefront of contemporary global efforts towards ensuring greater accountability for international crimes But the continent's early embrace of international criminal justice seems to be taking a new turn with the recent resistance from some African states claiming that the emerging system of international criminal law represents a new form of imperialism masquerading as international rule of law This book analyses the relationship and tensions between the International Criminal Court ICC and Africa It traces the origins of the confrontation between African governments both acting individually and within the framework of the African Union and the permanent Hague based ICC Leading commentators offer valuable insights on the core legal and political issues that have confused the relationship between the two sides and expose the uneasy interaction between international law and international politics They offer suggestions on how best to continue the fight against impunity using national ICC and regional justice mechanisms while taking into principled account the views and interests of African States *The Commercial & Financial Chronicle*, 1905 **Value of Railroad Securities** Dana, William B., and co., pub, 1917 Law and Regulation of Mobile Payment Systems Joy Malala, 2017-11-28 Over the last ten years mobile payment systems have revolutionised banking in some countries in Africa In Kenya the introduction of M Pesa a new financial services model has transformed the banking and financial services industry Giving the unbanked majority access to the financial services market it has attracted over 18 million subscribers which is remarkable given that fewer than 4 million people in Kenya have bank accounts This book addresses the legal and regulatory issues arising out of the introduction of M Pesa in Kenya and its drive towards financial inclusion It considers the interaction between regulation and technological innovation with a particular focus on the regulatory tools institutional arrangements and government decisional processes through the examination as a whole of its regulatory capacity This is done with a view to understanding the regulatory capacity of Kenya in addressing the vulnerabilities presented by technological innovation in the financial industry for consumers after financial inclusion It also examines the way that mobile payments have been regulated by criticising the piecemeal approach that the Central Bank of Kenya has taken in addressing the legal and regulatory issues presented by mobile payments The book argues there are significant gaps in the regulatory regime of mobile banking in Kenya *Bradstreet's Weekly*, 1902 **The Financial Review**, 1902 *The Annalist*, 1921 *Hand-book of Securities*, 1917 **The Commercial and Financial Chronicle**, 1922 **The Market World and Chronicle**, 1912 **The Financier**, 1901 **United States Investor**, 1900 **Handbook of Railroad Securities**, 1902 **Commercial and Financial Chronicle Bankers Gazette, Commercial Times, Railway Monitor and Insurance Journal**, 1900 Dun's Review, 1903 **The Commercial and Financial Chronicle**, 1900 *Governance Transfer by Regional Organizations* Tanja A. Börzel, 2015-02-03 This volume explores the conditions under which regional organizations engage in governance transfer in and to areas of limited statehood The

authors argue that a global script of governance transfer by regional organizations is emerging where regional and national actors are adapting governance standards and instruments to their local context      **The Routledge Handbook on Crime and International Migration** Sharon Pickering, Julie Ham, 2017-07-14 The Routledge Handbook on Crime and International Migration is concerned with the various relationships between migration crime and victimization that have informed a wide criminological scholarship often driven by some of the original lines of inquiry of the Chicago School Historically migration and crime came to be the device by which Criminology and cognate fields sought to tackle issues of race and ethnicity often in highly problematic ways However in the contemporary period this body of scholarship is inspiring scholars to produce significant evidence that speaks to some of the biggest public policy questions and debunks many dominant mythologies around the criminality of migrants The Routledge Handbook on Crime and International Migration is also concerned with the theoretical empirical and policy knots found in the relationship between regular and irregular migration offending and victimization the processes and impact of criminalization and the changing role of criminal justice systems in the regulation and enforcement of international mobility and borders The Handbook is focused on the migratory fault lines between the Global North and Global South which have produced new or accelerated sites of state control constructed irregular migration as a crime and security problem and mobilized ideological and coercive powers usually reserved for criminal or military threats Offering a strong international focus and comprehensive coverage of a wide range of border criminal justice and migration related issues this book is an important contribution to criminology and migration studies and will be essential reading for academics students and practitioners interested in this field      **Commercial and Financial Chronicle** ,1923
