

7 STEPS TO REACH GOALS

1 Write down your goal

Get your goal out of your imagination and onto a piece of paper. This then becomes a statement of intent.

2 Set a Deadline

Set a target date by which you will complete your goal. If your goal is a larger, more complicated challenge, break it down into smaller steps and determine a deadline for each separate step.

3 Work on your Mindset

You can begin to work on your mindset long before you tackle your first goal. Develop a positive, "glass-half-full" approach to every aspect of your life, including your thoughts about how you will achieve your goals.

4 Develop your Skill Set

It is very possible that a new goal will necessitate learning a new skill or will require some form of personal growth. Figure out what new knowledge you will need, or what new skills you will have to develop.

5 Take the first step

You don't need to wait until everything is just right. Get started now and make adjustments as you go along. Take that first step.

6 Continue to completion

The path to the ultimate completion of your goal is unlikely to be a straight and simple one. Do not give up when you encounter the first or any subsequent obstacles.

7 Reward Yourself

When you complete your goal it is important to reward yourself for this achievement. Look back over your accomplishments and enjoy the satisfaction that success brings.
