TECHNOLOGY MANAGEMENT Dr. Sanatan Prasad, Dr. Shalini Kumari, 2024-07-10 This book is organized by my Industrial Experience of Tata Steel Growth Shop and Teaching experience of RVS College of Engineering and Technology under Jharkhand University of Technology Ranchi. On and after taken classes of Technology Management of 7th Semester B Tech students I feel that an appropriate book is required for this course and I have planned to write a book. It is indeed a great pleasure and proud privilege for me to publish the first edition of this book entitled Basic of Technology Management. Purpose of this book is to provide a brief guide to the students to fulfill the requirement to cover the course. As far as possible I have tried to present the subject in an easy to read style. I have avoided unnecessary fat to the book since students like thin and handy books. From teaching point of view the course offered different major challenges. The field was evolving and there were numerous approaches to deal with the contents with technology new product development or innovations. Technology Strategy, Strategy Planning and Diffusion of Technology. I feel that Technology and Innovations are value drive and management decisions should be anchored in the fundamental objective of creative competitive advantage. I hope this book will serve the requirements of B Tech Engineering Students. Constructive suggestions will be gladly accepted and will be incorporated in the next edition.
