Leiter Report Tenure Track Hiring:

Forging a Rewarding Career in the Humanities Karla P. Zepeda, Ellen Mayock, 2014-11-26 As has been abundantly documented in the popular and academic press the humanities are facing challenging times marked by national debate regarding the importance of the humanities in higher education program and budget cuts and an ever decreasing number of tenure track jobs In addition the humanities face quite literally a quantification of their value as the Academy adopts a more corporate mindset This volume provides advice to professionals in the humanities on how to forge a useful compelling and productive career The book's 13 chapters address professional approaches to developing and maintaining an active research agenda fomenting the ideals of the teacher scholar model managing the service demands within and outside the college or university and navigating institutional politics The collection offers practical and theoretical approaches to higher education personal anecdotes intelligent advice and interviews with colleagues in the humanities Specific themes addressed include the transition from graduate student to humanities professional diverging from prescribed paths the humanities professor as creative writer moving from secondary to post secondary education humanities in an international market based context and participation in governance structures Cover photograph Silent Flutes by Adilia D Ortega **Socrates Tenured** Robert Frodeman, Adam Brigg, 2016-09-26 Professional philosophy has strayed so far from its roots that Socrates wouldn't stand a chance of landing tenure in most departments today After all he spent his time talking with people from all walks of life rather than being buried in the secondary literature and polishing arguments for peer reviewed journals Yet somehow this hypertrophy styles itself real philosophy Socrates Tenured diagnoses the pathologies of contemporary philosophy and shows how the field can be revitalized The first part of the book sketches the crisis facing philosophy in a neoliberal age and traces its roots back to the 20th century move to turn philosophy into an academic discipline In the second part the authors look at various attempts from applied ethics to their own brand of field philosophy to confront the resulting problems of insularity and societal irrelevance Part three connects this evaluation of philosophy with wider discussions in the politics of knowledge about the impacts of research on society The final chapters consider both what impacts philosophy might have and what a philosophy of impact might look like **Experimental Philosophy** Joshua Knobe, Shaun Nichols, 2014 This volume provides an introduction to the major themes of work in experimental philosophy bringing together some of the most influential articles in the field along with a collection of papers that explore the theoretical significance of this research *Philosophy at 3:AM* Richard Marshall, 2014-04-03 The appeal of philosophy has always been its willingness to speak to those pressing questions that haunt us as we make our way through life What is truth Could we think without language Is materialism everything But in recent years philosophy has been largely absent from mainstream cultural commentary Many have come to believe that the field is excessively technical and inward looking and that it has little to offer outsiders The 25 interviews collected in this volume all taken from a series of online interviews with leading philosophers published by the cultural

magazine 3ammagazine.com were carried out with the aim of confronting widespread ignorance about contemporary philosophy Interviewer Richard Marshall's informed and enthusiastic questions help his subjects explain the meaning of their work in a way that is accessible to non-specialists Contemporary philosophical issues are presented through engaging but serious dialogues that taken together offer a glimpse into key debates across the discipline Alongside metaphysics philosophy of mind epistemology logic philosophy of science philosophy of language political philosophy and ethics discussed here are feminist philosophy continental philosophy pragmatism philosophy of religion experimental philosophy bioethics animal rights and legal philosophy Connections between philosophy and fields such as psychology cognitive science and theology are likewise examined Marshall interviews philosophers both established and up and coming Engaging thoughtful and thought provoking inviting anyone with a hunger for philosophical questions and answers to join in Philosophy at 3 AM shows that contemporary philosophy can be relevant and even fun
