Les Anthropologues Face Au Monde Moderne:

Les Anthropologues face au monde moderne - , **Anthropology Confronts the Problems of the Modern World**

Claude Lévi-Strauss, 2013-03-05 This first English translation of lectures Claude Lévi-Strauss delivered in Tokyo in 1986 synthesizes his ideas about structural anthropology critiques his earlier writings on civilization and assesses the dilemmas of cultural and moral relativism including economic inequality religious fundamentalism and genetic and reproductive engineering L'anthropologie face aux problèmes du monde moderne Claude Lévi-Strauss, 2011

À l'occasion de son quatrième séjour au Japon au printemps 1986 Claude Lévi-Strauss critiqua les trois chapitres qui composent aujourd'hui ce volume trois conférences faites à Tokyo à l'invitation de la Fondation Ishizaka Il choisit pour cet ensemble le titre que porte présentement ce livre L'anthropologue y aborde les problèmes cruciaux d'un monde sur le point de rentrer dans le XXI^e siècle et propose un nouvel humanisme

Bibliographie Internationale D'anthropologie Sociale Et Culturelle 1994 , 1995 The IBSS is the essential tool for librarians university departments research institutions and any public or private institution whose work requires access to up to date and comprehensive knowledge of the social sciences Foucault's Orient Marnia

Lazreg, 2017-10-01 Foucault lived in Tunisia for two years and travelled to Japan and Iran more than once Yet throughout his critical scholarship he insisted that the cultures of the Orient constitute the limit of Western rationality Using archival research supplemented by interviews with key scholars in Tunisia Japan and France this book examines the philosophical sources evolution as well as contradictions of Foucault's experience with non Western cultures Beyond tracing Foucault's journey into the world of otherness the book reveals the personal political as well as methodological effects of a radical conception of cultural difference that extolled the local over the cosmopolitan **Claude Lévi-Strauss** Maurice

Godelier, 2018-08-07 Anthropologist Claude Lévi-Strauss was among the most influential thinkers of the twentieth century In this rigorous study Maurice Godelier traces the evolution of his thought Focusing primarily on Lévi-Strauss's analysis of kinship and myth Godelier provides an assessment of his intellectual achievements and legacy Meticulously researched Lévi-Strauss is written in a clear and accessible style The culmination of decades of engagement with Lévi-Strauss's work this book will prove indispensable to students of his thought and structural anthropology more generally **Empires, Nations, and**

Natives Benoît de L'Estoile, Federico Neiburg, Lygia Maria Sigaud, 2005-09-22 By drawing on the social history of the social sciences the sociology of scientific knowledge and the ethnography of the State these essays show how anthropology and state building should be considered as intertwined processes **Practices of Comparing** Angelika Epple, Walter

Erhart, Johannes Grave, 2020-06-22 Practices of comparing shape how we perceive organize and change the world Supposedly innocent practices of comparing play a decisive role in forming categories boundaries and hierarchies but they can also give an impetus to question and change such structures Like almost no other human practice comparing pervades all social political economic and cultural spheres This volume outlines the program of a new research agenda that places comparative

practices at the center of an interdisciplinary exploration Its contributions combine case studies with overarching systematic considerations They show what insights can be gained and which further questions arise when one makes a seemingly trivial practice comparing the subject of in depth research **A New Economic Anthropology** François Régis Mahieu, 2023-03-10

Traditionally economic anthropology has been studied by sociologists anthropologists and philosophers seeking to highlight the social foundations of economic action Meanwhile anthropological questions have remained largely untreated in economics despite the prominence given to the individual in microeconomics And there is very little in the way of dialogue between the two sides This book argues for a new economic anthropology which goes beyond the conflict of economics and anthropology to show the complementarity of the two approaches Economics needs to go beyond the stage of homo oeconomicus and be open to broader ideas about the person Equally anthropology can be enriched through the methods and models of economic theory This new economic anthropology goes beyond a simple observation of societies It is new because it introduces the responsible person with a wider range of characteristics in particular vulnerability and suffering as a subject of economics It is a particular interpretation of economic anthropology calling for a broadening of the subject moving from the individual to the person range of values admission of negative values for altruism social capital responsibility and disciplinary references Through this approach both economics and anthropology can be enriched This book will be of great interest to those working in the fields of economics anthropology philosophy and development studies *Bibliographie*
