STEIN,2018      **Les architectes des cathédrales gothiques** Henri Stein,2014      **French Gothic Architecture of the Twelfth and Thirteenth Centuries** Jean Bony,2023-11-15 Gothic architecture is the most visible and striking product of medieval European civilization Jean Bony

whose reputation as a medievalist is worldwide presents its development as an adventure of the imagination allied with radical technical advances the result of a continuing quest for new ways of handling space and light as well as experimenting with the mechanics of stone construction He shows how the new architecture came unexpectedly to be invented in the Paris region around 1140 and follows its history in the great cathedrals of northern France and dozens of other key buildings to the end of the thirteenth century when profound changes occurred in the whole fabric of medieval civilization Rich illustrations including comprehensive maps enhance the text and themselves constitute an exceptionally valuable documentation Despite its evident scholarly intention this book is not meant for specialists alone but is conceived as a progressive infiltration into the complexities of history at work revealing its unpredictable vitality to the uninitiated curious mind

**Gothic Architecture** Paul Frankl, Paul Crossley, 2000-01-01 This magisterial study of Gothic architecture traces the meaning and development of the Gothic style through medieval churches across Europe Ranging geographically from Poland to Portugal and from Sicily to Scotland and chronologically from 1093 to 1530 the book analyzes changes from Romanesque to Gothic as well as the evolution within the Gothic style and places these changes in the context of the creative spirit of the Middle Ages In its breadth of outlook its command of detail and its theoretical enterprise Frankl's book has few equals in the ambitious Pelican History of Art series It is single minded in its pursuit of the general principles that informed all aspects of Gothic architecture and its culture In this edition Paul Crossley has revised the original text to take into account the proliferation of recent literature books reviews exhibition catalogues and periodicals that have emerged in a variety of languages New illustrations have also been included
