Symposium,1996 **Le Corbusier - Œuvre complète Volume 2: 1929-1934** Willy Boesiger,2015-04-24 This exceptional Complete Works edition documents the enormous spectrum in the oeuvre of one of the most influential architects of the 20th Century Published between 1929 and 1970 in close collaboration with Le Corbusier himself and frequently reprinted ever since the eight volumes comprise an exhaustive and singular survey of his work Text/Image Mosaics in French Culture Laurence Grove,2017-03-02 This study compares text image interaction as manifested in emblem books and related forms and the modern bande dessinée or French language comic strip It moves beyond the issue of defining the emblematic genre to examine the ways in which emblems and their modern counterparts interact with the surrounding culture and what they disclose about that culture Drawing largely on primary material from the Bibliothèque nationale de France and from Glasgow University Library's Stirling Maxwell Collection of emblem literature Laurence Grove builds on the ideas of Marshall McLuhan Elizabeth Eisenstein and more recently Neil Rhodes and Jonathan Sawday Divided into four sections Theoretics Production Thematics and Reception Text Image Mosaics in French Culture broaches topics such as theoretical approaches past and present to text image forms the question of narrative within the scope of text image creations and the reuse of visual iconography for diametrically opposed political or religious purposes The author argues that despite the gap in time between the advent of emblems and that of comic strips the two forms are

analogous in that both are the products of a parallel mentality The mindsets of the periods that popularised these forms have certain common features related to repeated social conditions rather than to the pure evolution over time Grove's analysis and historical contextualisation of that mentality provide insight into our own popular culture forms not only the comic strip but also other hybrid media such as advertising and the Internet His juxtaposition of emblems and the bande dessinée increases our understanding of all such combinations of picture and text

**The Pictorial Third** Liliane Louvel, 2018-05-23 The Pictorial Third An Essay into Intermedial Criticism examines the extent to which poetry intertwines with painting and the visual at large and studies the singular relationship established between language and image observing the modalities and workings of what is termed intermedial transposition By following a critical method of the close analysis of texts the book examines to what extent the pictorial tool may be of help to analyze literary texts and thus enlarge and enrich literary criticism Examining the technical notions typical of the medium and its history including perspective framing colour anamorphosis trompe l'œil Veronica Veil still life portrait figure illusion apparatus genres and styles this volume presents a pragmatics of image in text and of the visual in text as an operative tool This pictorial reading necessarily includes synesthesia and the senses it also functions as a reading event or what happens to one when one unawares encounters a picture be it present in the book or the object of an ekphrasis Thus the body is eventually given back a role to play The sensitive approach has its own resonances and the eye or the gaze sometimes sees double in such intermedially oriented texts This volume proposes to identify the pictorial third as the phenomenon which can be apprehended in terms of effect or affect not only as a concept
