Zitarelli,Della Dumbaugh,Stephen F. Kennedy,2022-07-28 This is the first truly comprehensive and thorough history of the development of a mathematical community in the United States and Canada This second volume starts at the turn of the twentieth century with a mathematical community that is firmly established and traces its growth over the next forty years at the end of which the American mathematical community is pre eminent in the world In the preface to the first volume of this work Zitarelli reveals his animating philosophy I find that the human factor lends life and vitality to any subject History of mathematics in the Zitarelli conception is not just a collection of abstract ideas and their development It is a community of

people and practices joining together to understand perpetuate and advance those ideas and each other Telling the story of mathematics means telling the stories of these people their accomplishments and triumphs the institutions and structures they built their interpersonal and scientific interactions and their failures and shortcomings One of the most hopeful developments of the period 1900 1941 in American mathematics was the opening of the community to previously excluded populations Increasing numbers of women were welcomed into mathematics many of whom including Anna Pell Wheeler Olive Hazlett and Mayme Logsdon are profiled in these pages Black mathematicians were often systemically excluded during this period but in spite of the obstacles Elbert Frank Cox Dudley Woodard David Blackwell and others built careers of significant accomplishment that are described here The effect on the substantial community of European immigrants is detailed through the stories of dozens of individuals In clear and compelling prose Zitarelli Dumbaugh and Kennedy spin a tale accessible to experts general readers and anyone interested in the history of science in North America

Testimonios: Stories of Latinx and Hispanic Mathematicians Pamela E. Harris, 2021-08-16 Testimonios brings together first person narratives from the vibrant diverse and complex Latinx and Hispanic mathematical community Starting with childhood and family the authors recount their own individual stories highlighting their upbringing education and career paths Their particular stories told in their own voices from their own perspectives give visibility to some of the experiences of Latinx Hispanic mathematicians Testimonios seeks to inspire the next generation of Latinx and Hispanic mathematicians by featuring the stories of people like them holding a mirror up to our own community It also aims to provide a window for mathematicians and aspiring mathematicians from all ethnicities with the hope of inspiring a better understanding of the diversity of the mathematical community
