**Multigrade Schools** Étienne Brunswic, Jean Valérien, 2004 This book addresses a problem crucial to the implementation of education for all In sparsely populated or remote areas classes where a single teacher is responsible for several grades can make a big contribution and countries in Europe and North America were able to achieve universal primary education largely through multigrade schools Many countries in Latin America and Asia are achieving success with this approach which is increasing enrolment improving performance and reducing absenteeism in rural areas In India two thirds of primary schools are multigrade However while multigrade classes could be a solution for educating rural people in many African countries governments tend to focus on improving conventional schools often leaving the development of multigrade schools to local initiative For this reason multigrade schools in rural Africa tend to show poor results which in turn give them a negative image
