Management of Legionella in Water Systems National Academies of Sciences, Engineering, and Medicine, Health and Medicine Division, Division on Earth and Life Studies, Board on Population Health and Public Health Practice, Board on Life Sciences, Water Science and Technology Board, Committee on Management of Legionella in Water Systems, 2020-02-20 Legionnaires disease a pneumonia caused by the Legionella bacterium is the leading cause of reported waterborne disease outbreaks in the United States Legionella occur naturally in water from many different environmental sources but grow rapidly in the warm stagnant conditions that can be found in engineered water systems such as cooling towers building plumbing and hot tubs Humans are primarily exposed to Legionella through inhalation of contaminated aerosols into the respiratory system Legionnaires disease can be fatal with between 3 and 33 percent of Legionella infections leading to death and studies show the incidence of Legionnaires disease in the United States increased five fold from 2000 to 2017

Management of Legionella in Water Systems reviews the state of science on Legionella contamination of water systems specifically the ecology and diagnosis This report explores the process of transmission via water systems quantification prevention and control and policy and training issues that affect the incidence of Legionnaires disease It also analyzes existing knowledge gaps and recommends research priorities moving forward *Data Management* Margaret E. Henderson, 2016-10-25 Libraries organize information and data is information so it is natural that librarians should help people who need to find organize use or store data Organizations need evidence for decision making data provides that evidence Inventors and creators build upon data collected by others All around us people need data Librarians can help increase the relevance of their library to the research and education mission of their institution by learning more about data and how to manage it Data Management will guide readers through Understanding data management basics and best practices Using the reference interview to help with data management Writing data management plans for grants Starting and growing a data management service Finding collaborators inside and outside the library Collecting and using data in different disciplines

The Politics of Economic Life Martin Beckstein, 2015-09-07 In recent years economic life has become increasingly politicized now every company has a philosophy promising its customers some ethical surplus in return for buying their products consumers shop for change workers engage in individualized forms of employee activism such as whistleblowing and governments contribute to the re configuration of the economic sphere as a site of political contestation by reminding corporate and private economic actors of their duty to do their bit The Politics of Economic Life addresses this trend by exploring the ways in which practices of consumption work production and entrepreneurship are imbued with political strategy and ideology and assesses the potentials and perils of the politicization of economic activity for democracy in the 21st century

Buffy to Batgirl Julie M. Still, Zara T. Wilkinson, 2019-09-06 Science fiction and fantasy are often thought of as stereotypically male genres yet both have a long and celebrated history of female creators characters and fans

In particular the science fiction and fantasy heroine is a recognized figure made popular in media such as Alien The Terminator and Buffy The Vampire Slayer Though imperfect she is strong and definitely does not need to be saved by a man This figure has had an undeniable influence on The Hunger Games Divergent Star Wars The Force Awakens and many other more recent female led book and movie franchises Despite their popularity these fictional women have received inconsistent scholarly interest This collection of new essays is intended to help fill a gap in the serious discussion of women and gender in science fiction and fantasy The contributors are scholars teachers practicing writers and other professionals in fields related to the genre Critically examining the depiction of women and gender in science fiction and fantasy on both page and screen they focus on characters who are as varied as they are interesting and who range from vampire slayers to time travelers witches and spacefarers
