The background of the cover is a photograph of a calm river at night. The water is dark and reflects the ambient light. In the distance, a small boat with a light on board is visible on the left side of the river. The sky is a deep, dark blue, and the overall mood is peaceful and contemplative.

BON WEEK CULTURE CLUB FRANCE These texts are above all an extraordinary voyage into the thinking of the world's most widely read writer LE BIEN PUBLIQUE FRANCE **Second Wave Positive Psychology** Itai Ivtzan, Tim Lomas, Kate Hefferon, Piers Worth, 2015-10-23 Positive psychology is currently equated with theory and research on the positive aspects of life. The reality could not be further from the truth. Positive psychology investigates and researches some of the most difficult and painful experiences. **Second Wave Positive Psychology Embracing the Dark Side of Life** is an innovative and groundbreaking textbook that explores a variety of topics we consider to be part of the dark side of life while emphasising their role in our positive functioning and transformation as human beings. This more nuanced approach to the notions of positive and negative can be described as the second wave of Positive Psychology. Positive Psychology is one of the fastest growing and least understood branches of psychology. Exploring topics at the heart of Positive Psychology such as meaning, resilience, human development, mortality, change, suffering, and spirituality, this book engages with so-called negative matters from a Positive Psychology angle, showing how the path of personal development can involve experiences which, while challenging, can lead to growth, insight, healing, and transformation. Containing useful resources, case studies, practical exercises, and chapter summaries, **Second Wave Positive Psychology** is an essential guide for undergraduate and postgraduate students studying positive psychology as well as clinicians wanting to know more about the subject. It will also be relevant to the layperson who is interested in positive psychology. start at the end WIM DIJKGRAAF; MIKE VAN SPALL., 2007

Finding the Face Wim van den Dungen, 2019-05-23 This book is about recognizing the nature of mind, metaphorically called the Face. Referring to a state of total presence, it is undefinable by any term but inherently radiant and wakeful. Figuratively explained as a mirror, its nature is brilliant clarity and an unobstructed medium for whatever appears. The method leading to it is called supreme yoga, known in Tibet as Dzogchen or Great Completion, said to have been first taught by the semi-historical Garab Dorje, initiated by Buddha Vajrasattva himself. In his Three Inclusive Precepts, he summarized to his heart student the 64 million verses.
