unique features of this attorney's guide is an extensive list of questions for lawyers to ask their own and their opponent's expert witnesses before going to trial. The deposition of a forensic document examiner includes questions relating to the examiner's experience, working methodology, background and education, knowledge base, certifications, achievements and many other items relating to the examiner's abilities. Next, an extensive set of questions helps lawyers ask for the right information pertaining to the examiner's specific methods of preparation for the case at hand. After the deposition is taken, the expert must be qualified in court; this book includes 60 qualifying questions. After qualification, it is time to move on to questions about document examination and the case being litigated. Finally, new questions pertaining specifically to the cross-examination of document examiners are presented once again, relating to credentials and a given case. This valuable resource concludes with a chapter describing the relevance of various court citations involving handwriting. Appendices are devoted to suggested reading, a resource list of experts related to the field including photographers, librarians and appraisers, organizations and a glossary of technical terms.
