Arab Dawn Bessma Momani, 2015-11-26 In the West news about the Middle East is dominated by an endless stream of reports and commentary about civil war, sectarian violence, religious extremism and economic stagnation. But do they tell the full story? For instance, who knew that university enrolment in the war-torn Palestinian territories exceeds that of Hong Kong or that more than a third of Lebanese entrepreneurs are women? Change is on its way in the Middle East, argues Bessma Momani, and its cause is demographic. Today one in five Arabs is between the ages of fifteen and twenty-four. Young, optimistic and increasingly cosmopolitan, their generation will shape the region's future. Drawing on interviews, surveys and other research conducted with young people in fifteen countries across the Arab world, Momani describes the passion for entrepreneurship, reform and equality among Arab youth. With insightful political analysis based on the latest statistics and first-hand accounts, *Arab Dawn* is an invigorating study of the Arab world and the transformative power of youth.

Governomics Ian McAuley, Miriam Lyons, 2015-05-01 People have good reason to demand decent public education and a well-funded health system; to yearn for an economy that doesn't trash the environment or for a smaller gap between rich and poor. Almost without exception, sound economics is on their side. We've grown used to public debates that pit people and the planet against an abstract, distorted image of the economy, but it doesn't have to be this way. *Governomics* shows that an emaciated state is bad for business and that standing up for government means standing up for a public sector that truly serves the public. Everybody knows governments are wasteful, incompetent and a drag on the economy. But if you're not sure that's true, read this book. Ross Gittins, *Sydney Morning Herald* and *The Age*. *Governomics* shows that a market economy can only work when sustained by a strong and active public sector. It will inject some much-needed economic sanity into conversations on the role of government in Australia. John Quiggin, Australian Research Council Laureate Fellow, University of Queensland.

Global Social Policy Kepa Artaraz, Liz Cunningham, Michael Hill, 2016-06-29 Social policy is a subject that helps develop our understanding of the meaning of human wellbeing and of the systems by which wellbeing must be promoted. As a discipline, social policy has traditionally been blunted by a focus on the nation-state; however, in this age of globalisation, the most pressing challenges such as climate change, ageing populations and flagging economies serve as proof that even at national level, social policy is now more heavily influenced by global factors than ever before. In this important and authoritative text, Kepa Artaraz and Michael Hill provide a richly detailed contribution to our understanding of the global forces shaping social problems today. Part One discusses the different approaches to social policy and explores the process of globalisation, looking particularly at its winners and losers and the implications it has for human wellbeing. Part Two examines more closely the key actors in global social policy, such as the market, the state and international organisations, and Part Three provides an opportunity to explore some specific key issues of global importance.

such as employment and migration demographic change and global poverty Adding considerable momentum to the movement away from a reductionist nationally focused study of the discipline Global Social Policy opens up new and stimulating discussions and provides a fresh framework for the study of human well being Using policy examples from areas around the world to provide a truly international scope it is an essential read for students studying at all levels *Yearbook of International Organizations 2014-2015 (Volume 4)* Union Of International Associations, Union of International Associations, 2014-09-17 The Yearbook of International Organizations provides the most extensive coverage of non profit international organizations currently available Detailed profiles of international non governmental and intergovernmental organizations IGO collected and documented by the Union of International Associations can be found here In addition to the history aims and activities of international organizations with their events publications and contact details the volumes of the Yearbook include networks between associations biographies of key people involved and extensive statistical data Providing both an international organizations and research bibliography Volume 4 cites over 46 000 publications and information resources supplied by international organizations and provides nearly 18 000 research citations under 40 subject headings This volume also includes a research bibliography on international organizations and transnational associations
