**White Paper on Science and Technology**, 2015 *Understanding West Africa's Ebola Epidemic* Ibrahim Abdullah, Ismail Rashid, 2017-10-15 From 2013 to 2015 over 11 000 people across West Africa lost their lives to the deadliest outbreak of the Ebola virus in history Crucially this epidemic marked the first time the virus was able to spread beyond rural areas to major cities overturning conventional assumptions about its epidemiology With backgrounds ranging from development to disease control the contributors to this volume some of them based in countries affected by the Ebola epidemic consider the underlying factors that shaped this unprecedented outbreak While championing the heroic efforts of local communities and aid workers in halting the spread of the disease the contributors also reveal deep structural problems in both the countries and humanitarian agencies involved which hampered the efforts to contain the epidemic Alarming they show that little has been learned from these events with health provision remaining underfunded and poorly equipped to deal with future outbreaks Such issues they argue reflect the wider challenges we face in tackling epidemic disease in an increasingly interconnected world

*Intellectual Property Issues in Life Sciences* Chetan Keswani, Cristina Possas, 2024-11-15 Intellectual Property Issues in Life Sciences Disputes and

Controversies highlights emerging legal social and regulatory issues pertaining to various areas of life sciences Patents occupy a prominent position in the innovation systems in the life sciences but to what extent they support or hinder innovation is widely disputed Life science is a broad subject including agriculture ecology microbiology plant and animal sciences health and diseases biotechnology etc However despite the broad applications of biotechnology and molecular biology techniques profits on investments are surprisingly low Thus it is vitally important for universities public research organizations and private enterprises to protect their innovations There are vast differences of opinion on patentability of living organisms which are largely barred from patent protection However mind sets are rapidly shifting and IP issues in life sciences are receiving increasing attention To compete with progressive bio based economies the developing countries are amending their IP laws to encourage investment An effort has been made to avoid considering policy in isolation but rather to emphasize the interplay between the policy mix the wider institutional setting market forces and system organization solutions Both empirical and conceptual chapters are included to bring them together and to yield facts and interpretations for the readers This book presents expert opinions by frontier academicians researchers and attorneys on the recent challenges in the rapidly evolving life science industry The present book offers comprehensive knowledge on the contemporary issues in life sciences to a wide range of audiences including students scholars researchers legal practitioners policymakers and others interested in emerging intellectual property issues Features The only compilation available on the contemporary intellectual property issues in life sciences in the post COVID era Focuses on the commercial regulatory bioethical and socio legal implications of patents in life sciences Describes an integrated approach for sustained innovations in various areas of life sciences Discusses the recent IP controversies in a pan global context Presents viewpoints to front line practitioners viz attorneys researchers etc

Food Security and the Modernisation Pathway in China Marie-Hélène Schwoob, 2018-01-26 This book aims at providing students experts and practitioners with a detailed overview of agricultural and food security issues in China analyzed through the lenses of a multidisciplinary approach that enables to fully grasp the current socio political challenges and lock ins of agricultural transformation towards more sustainable practices Confronted to a running decrease and degradation of its resources and rapidly evolving food habits China became a net importer of food in 2004 and its agricultural balance has since become heavier every day Beyond providing a comprehensive overview of these stakes this book also presents consistent and original first hand research material collected by the author during months of fieldwork in China in the countryside and from various economic and political circles Conclusions drawn from this often difficult to access fieldwork shed light on the whole galaxy of public and private stakeholders taking part in agricultural modernization in China on their interests and on the patterns of power that underlie the development and implementation of agricultural policies

The Top Books of the Year Life Sciences March 2014 Question Paper The year 2023 has witnessed a remarkable surge in literary brilliance, with numerous engrossing novels captivating the hearts of readers worldwide. Lets delve into the realm of popular books, exploring the captivating narratives that have enthralled audiences this year. The Must-Read : Colleen Hoover's "It Ends with Us" This poignant tale of love, loss, and resilience has captivated readers with its raw and emotional exploration of domestic abuse. Hoover masterfully weaves a story of hope and healing, reminding us that even in the darkest of times, the human spirit can triumph. Uncover the Best : Taylor Jenkins Reids "The Seven Husbands of Evelyn Hugo" This intriguing historical fiction novel unravels the life of Evelyn Hugo, a Hollywood icon who defies expectations and societal norms to pursue her dreams. Reids absorbing storytelling and compelling characters transport readers to a bygone era, immersing them in a world of glamour, ambition, and self-discovery. Life Sciences March 2014 Question Paper : Delia Owens "Where the Crawdads Sing" This captivating coming-of-age story follows Kya Clark, a young woman who grows up alone in the marshes of North Carolina. Owens spins a tale of resilience, survival, and the transformative power of nature, entrancing readers with its evocative prose and mesmerizing setting. These bestselling novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of compelling stories waiting to be discovered. The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a exceptional and gripping novel that will keep you speculating until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
