Inspiring STEM Minds Aaron D. Isabelle,Nataly Z. Valle,2015-12-28 The purpose of this book is to serve as a supplemental reference text for 21st century elementary classrooms The primary objective is to help teachers inspire and engage their students in the STEM science technology engineering and mathematics subjects The push for incorporating STEM education in elementary school has become increasingly important yet most educators and publishers have offered problem based activities without considering one of the most important pedagogical entry points to lesson planning the hook or the opening und attachment initial background size initial background origin initial background clip initial background position initial background repeat initial Inspiring STEM Minds aims at providing teachers an effective easy to use text that they can use to discuss specific mathematicians engineers inventors and scientists although the individuals chosen for each section of the book are in no way an exhaustive or selective group that may characterize each discipline This reference text is organized into four key sections depicting the four disciplines that make up STEM education Each section briefly gives historical background as well as provides a problem or short activity designed to use everyday materials so that teachers can implement the activity in their classrooms The classroom activities are directly related to each biography and have we believe great potential to engage students in the classroom Each activity is also correlated to the National Standards and we also supplement the activities with suggestions for interdisciplinary connections We hope this book serves as a valuable resource for classroom teachers

Inside/Outside: A Nature-Themed Resource Book for Embedding Emotional Literacy Joe Harkness,2023-09-28 Inside Outside is a unique educational resource for those working with young people of secondary school age providing a variety of tried and tested indoor and outdoor lessons and activities to promote and embed emotional literacy The book is divided into three accessible sections emotions and feelings self and situation and mental health and wellbeing which each cover a variety of themes from anxiety and depression to happiness communication and confidence For each theme inside and outside activities are offered with inside activities inspiring students to self reflect and develop empathy for others and those outside drawing heavily on

nature and learning outside the classroom The outside activities are adaptable and have been designed to work in any available outdoor space and all activities can be used either in standalone lessons or sequentially with introductory tasks group activities and circle time discussions With a focus on equipping students with meaningful and tangible skills to support them in the recognition identification and expression of their emotions Inside Outside will be a valuable resource for teachers youth workers home educators and anyone else looking to facilitate nature connection and introspection in children aged eleven to sixteen

Science for the Elementary and Middle School Edward Victor, Richard Dean Kellough, 1997 This text provides a source of science content methods and activities It examines effective science teaching methods explores how science instruction helps children improve knowledge gaining skills and provides the content information and activities needed for a complete science course
