Introducción a la psicopatología y la psiquiatría ,2006 *Adams and Victor's Principles of Neurology 10th Edition* Allan H. Ropper,Martin A. Samuels,Joshua Klein,2014-05-25 The gold standard text that has defined neurology updated for today s practice in full color The definitive text on the full spectrum of neurology for decades Adams and Victor s provides the treatment and management strategies needed to confidently handle both common and rare neurologic conditions Written in a clear consistent tone this classic resource will meet the needs of the seasoned professional or the aspiring clinician Written from the perspective of the general neurologist Adams and Victor s has been hailed as the most detailed thorough and authoritative text available on the subject Adams and Victor s Principles of Neurology Tenth Edition describes the various categories of neurologic disease and the main diseases that constitute each Each subject is introduced by a detailed discussion of the symptoms and signs of disordered nervous function their anatomic and physiologic bases and their clinical implications Adams and Victor s Principles of Neurology is logically divided into six parts The Clinical Method of Neurology Cardinal Manifestations of Neurologic Disease Growth and Development of the Nervous System in the Neurology of Aging Major Categories of Neurologic Disease Diseases of the Spinal Cord Peripheral Nerve and Muscle Psychiatric Disorders The Tenth Edition is highlighted by the welcome addition of full color photographs expanded coverage of important subspecialties and an increased number of tables and figures Edition after edition Adams and Victor s has stayed true to its original mission to provide a well written readable text emphasizing a disciplined presentation of clinical data and lucid descriptions of underlying disease processes Medical Risks [2 Volumes] Edward A. Lew,Jerzy Gajewski,1990-09-27 Medical Risks is the fruit of ten years research into mortality patterns by age and time elapsed for a wide variety of medical conditions It contains more detailed information on prognosis in specific impairments than can be found in any medical textbook Indeed it constitutes the largest compilation of evaluated data about prognosis according to age sex time elapsed and other factors affecting mortality notably for cancer cardiovascular diseases hypertension respiratory diseases gastrointestinal diseases genitourinary disorders endocrine and metabolic disorders neurological and psychiatric disorders overweight and

underweight problems and occupational and lifestyle hazards The findings have been summarized in thirteen overview chapters supported by nearly 400 abstracts of mortality studies among hospital patients patients of individual or group physicians persons included in special surveys insured lives and other selected populations The abstracts focus on the relative mortality experiences as compared with healthy lives or the general population The abstracts based on the experience among insured lives also indicate the reductions in life expectancy for various impairments The diversity of the results in different investigations calls attention to the wide range of variability in medical risks under different circumstances The scientific importance of the volume lies primarily in the evaluation and analyses of the mortality experience which is presented in a uniform life table format that facilitates comparisons No single work covers similar ground as extensively and in as much technical detail A scientist or physician who needs data on medical risks would have to consult hundreds of books articles and research reports to obtain comparable information Kaplan and Sadock's Comprehensive Textbook of Psychiatry Benjamin J. Sadock, Virginia A. Sadock, 1999-12-01 hroughout six prior editions CTP has defined the field of psychiatry Every edition has garnered accolades from the highest levels of psychiatry and established the text as the authoritative Bible for the specialty A new modern design and added color are just two of the many improvements and updates in the Seventh Edition of this landmark text Carefully edited to include definitions and diagnostic criteria of mental disorders used in ICD 10 the Seventh Edition features approximately 260 new contributors and section editors and 75 new chapter sections A wealth of new information and updated coverage makes the Seventh Edition an essential cornerstone for every psychiatric practice Kaplan and Sadock's Comprehensive Textbook of Psychiatry Robert Joseph Boland, Marcia L. Verduin, 2024-05-07 Over the book s course they oversaw an expansion to two volumes and more than 5 000 pages with more than 600 contributors This growth reflects the fantastic expansion of the field of psychiatry with advances in neuroscience pharmacology psychological theory and practice cultural psychiatry sociology and many other affiliated areas To accommodate this the Sadocks organized the book into different subject area sections each with an expert contributing editor
