**Teaching for Racial Equity** Tonya B. Perry, Steven Zemelman, Katy Smith, 2023-10-10 Recipient of the 2022 Excellence in Equity Award It is not enough to be against racism in education teachers must be actively antiracist Yet how do we start reflecting on our own beliefs and lives so we can truly teach for racial literacy In the award winning Teaching for Racial Equity Becoming Interrupters authors Tonya Perry Steven Zemelman and Katy Smith engage in honest conversations between educators of color and their white colleagues Authentic inspiring and sometimes uncomfortable teachers share stories of personal histories and experiences that shaped them as people and educators In this book you will find Strategies to understand different backgrounds through a racial lens and ways to address potentially difficult conversations with fellow educators In depth overview of Yolanda Sealey Ruiz s Archaeology of SelfTM and how it can be personally and professionally adopted Lists of resources for teaching about and actively interrupting racism in education and tools that document systemic inequalities in the classroom Ways to facilitate student led conversations which examine race and inequitable conditions found nationwide By examining inequalities found at a systemic level teachers can start to remove some of their internal biases and allow students to show who they truly are In turn this can help create a school curriculum that makes space for BIPOC voices that inspire and invite students to share Teaching for Racial Equity Becoming Interrupters provides a resource for teachers and educators to critically reflect and begin work to interrupt racism at all levels , Material Theories Elena Chestnova, 2022-06-19 Material Theories takes a radically new approach to well established thinking on nineteenth century architecture and design by investigating Gottfried Semper s classic ideas about dressing metamorphosis of material and cultural development culminating in his two volume publication Style This book demonstrates how Semper s theories crystallised among his encounters with material things of the late 1840s and early 1850s It examines several discursive frameworks and phenomena which shaped the attitude to artefacts in Europe in the mid nineteenth century and which were specifically pertinent to Semper s evolution archaeology and antiquarianism the domestic interior print media collections and the embodied relationship between the designer and their work For the first time this book examines the construction of a design theory not only as an intellectual endeavour but also as a process of confrontation with material things It employs recent approaches to material culture in particular Thing Theory in order to show that Semper s artefact references constituted his ideas rather than simply giving impetus to them It will be an important investigation for academics and researchers interested in interior design history as well as scholars of material culture and history of design theory **Sick Schools** David V.
