Military Julian Date 2014:

A Military Life of Constantine the Great Ian Hughes, 2021-01-13 A new analysis of the strengths organization weapons and tactics of the Roman army Constantine inherited and his military reforms Much of Constantine I's claim to lasting fame rests upon his sponsorship of Christianity and many works have been published assessing whether his apparent conversion was a real religious experience or a cynical political maneuver However his path to sole rule of the Roman Empire depended more upon the ruthless application of military might than upon his espousal of Christianity He fought numerous campaigns many against Roman rivals for Imperial power most famously defeating Maxentius at the Battle of the Milvian Bridge In this new study Ian Hughes assesses whether Constantine would have deserved the title the Great for his military achievements alone or whether the epithet depends upon the gratitude of Christian historians All of Constantine's campaigns are narrated and his strategic and tactical decisions analyzed The organization strengths and weaknesses of the Roman army he inherited are described and the effect of both his and his predecessors reforms discussed The result is a fresh analysis of this pivotal figure in European history from a military perspective

North Korean Military Proliferation in the Middle East and Africa Bruce E. Bechtol Jr., 2018-09-07 North Korea has posed a threat to stability in Northeast Asia for decades Since Kim Jong un assumed power this threat has both increased and broadened Since 2011 the small isolated nation has detonated nuclear weapons multiple times tested a wide variety of ballistic missiles expanded naval and ground systems that threaten South Korea and routinely employs hostile rhetoric Another threat it poses has been less recognized North Korea presents a potentially greater risk to American interests by exporting its weapons systems to other volatile regions worldwide In *North Korean Military Proliferation in the Middle East and Africa* Bruce E Bechtol Jr analyzes relevant North Korean military capabilities what arms the nation provides and to whom how it skirts its sanctions and how North Korea's activities can best be contained He traces illicit networks that lead to state and nonstate actors in the Middle East including Syria Iran Hezbollah and Hamas and throughout Africa including at least a dozen nations The potential proliferation of nuclear and chemical weapons technology and the vehicles that carry it including ballistic missiles and artillery represent a broader threat than the leadership in Pyongyang Including training and infrastructure support North Korea's profits may range into the billions of dollars all concealed in illicit networks and front companies so complex that the nation struggles to track and control them Bechtol not only presents an accurate picture of the current North Korean threat he also outlines methodologies that Washington and the international community must embrace in order to contain it

With Us and Against Us Stephen Tankel, 2018-05-22 In the wake of the September 11 attacks President George W Bush drew a line in the sand saying Either you are with us or you are with the terrorists Since 9 11 many counterterrorism partners have been both with and against the United States helping it in some areas and hindering it in others This has been especially true in the Middle East Africa and South Asia where the terrorist groups that threaten America are most concentrated Because so many aspects of U S counterterrorism strategy are dependent on international cooperation the United States has little choice but to work with other countries Making the most of these partnerships is fundamental to the success of the War on Terror Yet what the United States can reasonably expect from its counterterrorism partners and how to get more out of them remain too little understood In *With Us and Against Us* Stephen Tankel analyzes the factors that shape counterterrorism cooperation examining the ways partner nations aid international efforts as well as the ways they encumber and impede effective action He considers the changing nature of counterterrorism exploring how counterterrorism efforts after 9 11 critically differ both from those that existed beforehand and from traditional alliances Focusing on U S partnerships with Algeria Egypt Mali Pakistan Saudi Arabia and Yemen against al Qaeda ISIS and other terrorist organizations Tankel offers nuanced propositions about what the U S can expect from its counterterrorism partners depending on their political and security interests threat perceptions and their relationships with the United States and with the terrorists in question With
