Life Orientation Grd11 2013 Nov

Nuraan Davids, Yusef Waghid

Life Orientation Grd11 2013 Nov:

Sexuality, Society & Pedagogy Dennis A. Francis, 2013-01-01 Sexuality Society and Pedagogy problematises some of the prevailing assumptions that frame this area of study. In doing so it aims to make visible the challenges of teaching sexuality education in South African schools while demonstrating its potential for reshaping our conceptions of the social and cultural representations thereof. Although the book is largely situated in experiences and perspectives within the South African context it is hoped that the questions raised, reflections, analyses and arguments will contribute to thinking about sexuality education in diverse contexts in particular more developing contexts. **From Predator to Prey** Letlhokwa

George Mpedi, 2025-10-31 In the stillness of the African bush leadership reveals itself in its most primal form. Here where the survival of each species depends on discipline, instinct, coordination and trust its lessons arise from the most unexpected sources. For Letlhokwa George Mpedi a journey through South Africa's Kruger National Park transformed from merely a game drive to a masterclass in leadership. Observing the intricate dynamics of animal behaviour Letlhokwa began to trace compelling parallels between the natural order and human systems of power. Through this lens this book explores how nature's codes can inform leadership dynamics. Drawing from a distinctly African approach to leadership which emphasises community and interdependence **From Predator to Prey** explores the unwritten rule of law that governs the wild and its applications for humanity. From the silent cooperation of lionesses on a hunt to the matriarchal approach of elephants and even the territorial instincts of wild dogs this book offers a vivid and thought provoking perspective on how nature's instincts can inform our understanding of leadership dynamics. As Letlhokwa tracks and interprets the behaviours and strategies of various species he challenges conventional ideas of leadership based solely on top down control. Through this observation he invites a critical rethinking of conventional leadership paradigms. In place of rigid hierarchies he presents a model that values the very tenets of ubuntu leadership as he offers a compelling argument for leadership rooted in nature's enduring logic. Letlhokwa George Mpedi is a Professor of Labour and Social Security Law and the Vice Chancellor and Principal of the University of Johannesburg UJ. He completed his B Juris degree 1996 and LLB degree 1998 at Vista University. In 2001 the LLM degree in Labour Law was conferred upon him by the then Rand Afrikaans University now UJ and the LLD degree in Mercantile Law was conferred upon him in 2006 by UJ. **Educational Leadership in Becoming** Nuraan Davids, Yusef

Waghid, 2016-08-25 **Educational Leadership in Becoming** reconsiders educational leadership in its current forms and presents a more plausible form of educational leadership to contend with the complexities currently found in universities and schools. Much of the literature in vogue concerning educational leadership ranges from transactional to transformative representations of the concept in relation to educational management and policy, curriculum inquiry and pedagogical action. The primary aim of this book is to revisit some of the dominant understandings of educational leadership and to offer an extended view of the practice along the lines of potentiality and becoming. Davids and Waghid argue that all current forms of

educational leadership are insufficient to enact responsible human action particularly when it comes to addressing the combined issues of globalisation and equitable redress and transformation whether in relation to leading schools or universities The primary objective of the book is to draw on the Agambian notion of becoming in order to show that an educational leadership in becoming is better placed to not only address the myriad challenges besetting education but to also enhance the potential of leadership in action The book addresses an international audience by analysing conceptions of transformative leadership and should be read by anyone who is interested in education and educational leadership as well as the impact of neoliberal agendas on education and society It should also appeal to those interested in the philosophy of education

Participatory Visual Methodologies Claudia Mitchell, Naydene De Lange, Relebohile Moletsane, 2017-09-18 This book demonstrates how data from participatory visual methods can take people and communities beyond ideological engagement initiating new conversations and changing perspectives policy debates and policy development These methods include for example photo voice participatory video drawing mapping and digital storytelling Organised around a series of tools that have been used across health education environmental and sociological research Participatory Visual Methodologies illustrates how to maintain participant engagement in decision making navigate critical issues around ethics track policies and maximize the potential of longitudinal studies Tools discussed include Pedagogical screenings Digital dialogue devices Upcycling and speaking back interventions Participant led policy briefs An authoritative and accessible guide to how participatory visual methods and arts based methods can influence social change this book will help any postgraduate researcher looking to contribute to policy dialogue
