*Aging Research and Practices in Malaysia* Tengku Aizan Hamid, Maw Pin Tan, Siti Anom Ahmad, Pei-Lee Teh, Devinder Kaur Ajit Singh, Rahimah Ibrahim, 2022-07-28      *Safety and Reliability - Safe Societies in a Changing World* Stein Haugen, Anne Barros, Coen Gulijk, Trond Kongsvik, Jan Erik Vinnem, 2018-06-15

*Safety and Reliability Safe Societies in a Changing World* collects the papers presented at the 28th European Safety and Reliability Conference ESREL 2018 in Trondheim Norway June 17 21 2018. The contributions cover a wide range of methodologies and application areas for safety and reliability that contribute to safe societies in a changing world. These methodologies and applications include foundations of risk and reliability assessment and management, mathematical methods in reliability and safety, risk assessment, risk management, system reliability, uncertainty analysis, digitalization and big data, prognostics and system health management, occupational safety, accident and incident modeling, maintenance modeling and applications, simulation for safety and reliability, analysis, dynamic risk and barrier management, organizational factors and safety culture, human factors and human reliability, resilience engineering, structural reliability, natural hazards, security, economic analysis in risk management. *Safety and Reliability Safe Societies in a Changing World* will be invaluable to academics and professionals working in a wide range of industrial and governmental sectors: offshore oil and gas, nuclear engineering, aeronautics and aerospace, marine transport and engineering, railways, road transport, automotive engineering, civil engineering, critical infrastructures, electrical and electronic engineering, energy production and distribution, environmental engineering, information technology and telecommunications, insurance and finance, manufacturing, marine transport, mechanical engineering, security and protection and policy making.      *Handbook of Research on Science Education, Volume II* Norman G. Lederman, Sandra K. Abell, 2014-07-11. Building on the foundation set in Volume I, a landmark synthesis of research in the field, Volume II is a comprehensive state of the art, new volume highlighting new and emerging research perspectives. The contributors, all experts in their research areas, represent the international and gender diversity in the science education research community. The volume is organized around six themes: theory and methods of science education research, science learning, culture, gender and society, and science learning, science teaching, curriculum and assessment in science, science teacher education. Each chapter presents an integrative review of the research on the topic, pulling together the existing research, working to understand the historical trends and patterns in that body of scholarship, describing how the issue is conceptualized within the literature, how methods and theories have shaped the outcomes of the research, and where the strengths, weaknesses, and gaps are in the literature. Providing guidance to science education faculty and graduate students and leading to new insights and directions for future research, the *Handbook of Research on Science Education, Volume II* is an essential resource for the entire science education community.      **Journal of the National Cancer Institute**, 2014
