development **Social Problems** Anna Leon-Guerrero, 2018-07-10 Empower your students to become part of the solution The new Sixth Edition of Anna Leon Guerrero's *Social Problems: Community Policy and Social Action* goes beyond the typical presentation of contemporary social problems and their consequences by emphasizing the importance and effectiveness of community involvement to achieve real solutions. With a clear and upbeat tone, this thought-provoking text challenges readers to see the social and structural forces that determine our social problems, to consider various policies and programs that attempt to address these problems, and to recognize and learn how they can be part of the solution to social problems in their own community. New to This Edition: Many of the social policy discussions, including immigration, LGBTQ rights, the Affordable Care Act, and Internet neutrality, have been updated to reflect the most recent government actions and debates. More recent data and new data sources have been incorporated throughout both in the main narrative and in the Exploring Social Problems features. New Voices in the Community: subjects on gender work and the economy and war and terrorism appear in several chapters. New In Focus topics include Black Lives Matter, assault weapons, and college drug problems. The chapter on gender has been substantially updated with new or expanded coverage of binary cisgender transgender identification, gender nonconformity, discrimination, sexual misconduct on college campuses, and the rights of trans and intersex individuals. Other new or expanded coverage elsewhere includes economic anxiety, robotization in the workplace, white nationalists, feminist theories about race, fake news, net neutrality, community policing, gentrification and segregation in U.S. cities, and the immigration and environmental policies of the Trump administration. *Sexuality Education that Prioritizes Sexual Well-Being: Initiatives and Impact* Jacqueline Hendriks, Allison Carter, Jessie Ford, 2025-12-01 All children and young people should receive comprehensive sexuality education from a variety of sources that empowers them to develop a positive self identity and provides them with the tools necessary to form healthy relationships and to manage their own sexuality and sexual health. The positive impact such education has for the health and well-being of individuals, communities, and societies has been extensively documented in academic literature. Despite the strong evidence base, the actual provision of sexuality education can vary markedly across settings and countries and may often focus on biology, the prevention of violence, diseases, or pregnancy, and the use of fear-based or sex-negative messaging. Contemporary international guidelines and extensive empirical research strongly encourage strengths-based models that are sex-positive and empower young people to develop healthy relationships and to learn about pleasure and sexual well-being. Such programs are often grounded in human rights and ethical frameworks. In reality, specific examples of such programs and guidance about implementation are not easily accessible. Research and evaluation data may also be limited or not widely shared. The intention of this Research Topic is to showcase a variety of evidence-based initiatives that prioritize and celebrate sexual well-being through education. The impact of such programs shall also be explored alongside broader discussions about implementation, sustainability, replication, and scaling. We are keen to spotlight initiatives that address a specific sexuality education topic alongside more extensive

programs A variety of age groups preK 16 and educational settings e g home school community online are welcome Critically a key attribute of any showcased initiative is that it seeks to provide education via sex positive approaches that address sexual well being sex positivity and or pleasure This Research Topic welcomes research that includes but is not limited to the following scientifically rigorous evaluations of educational interventions empirical examinations of best practice in educational design meta analyses of educational practice innovation or pedagogies barriers and enablers to program implementation sustainability replication and or scale up cross cultural and or cross national studies study protocols Potential topics of interest include but are not limited to Inclusion of young people in educational design How pleasure discourse is contextualized within sexuality education curricula Human rights Implementation challenges Ethical issues Adolescents views on sex and pleasure education The role of digital technology We especially welcome submissions from young people people from key populations and community based organizations We request that submissions adhere to the principles of respectful and stigma free language
