manufacture and more robust it had a blistering 1 200rpm rate of fire Nicknamed Hitler's buzzsaw by Allied troops it was arguably the finest all round GPMG ever produced and alongside the MG 34 it inflicted heavy casualties Featuring specially commissioned full colour artwork and drawing upon numerous technical manuals and first hand accounts this study explores the technological development varied roles and lasting influence of the revolutionary MG 34 and MG 42 machine guns and their postwar successors

Russian Machine Guns since 1945 Leroy Thompson, 2025-12-18 Written by a noted authority this fully illustrated study describes and depicts the machine guns equipping Soviet and Russian troops after 1945 Following the USSR's victory in World War II the Soviet armed forces adopted a succession of new or improved machine guns At squad level the 7 62mm RPD and RP 46 light machine guns replaced the DPM themselves being supplanted by the RPK from 1961 Firing the lighter 5 45 39mm cartridge the RPK 74 was issued from 1974 and remains in use today The 5 45mm RPK 16 entered Russian service in 2018 Having served alongside the 7 62mm PM M1910 Maxim during World War II the 7 62mm SG 43 medium machine gun was updated as the SGM before being supplanted by the 7 62mm PK general purpose machine gun issued from 1961 The improved PKM made its debut in 1969 and still equips Russian troops today being joined by the PKP in 2001 and the AEK 999 in 2008 First issued in 1938 the formidable 12 7mm DShK heavy machine gun remains in Russian service today as the DShKM It was joined by the 14 5mm KPV from 1949 the 12 7mm NSV from 1971 and the 12 7mm Kord from 1998 In this illustrated survey Leroy Thompson investigates the origins development combat use and legacy of all of these machine guns since 1945 from the start of the Cold War to the 2020s casting light on their battlefield effectiveness and tactical influence

The MP38, 40, 40/1 and 41 Submachinegun Guus De Vries, 2001-07-01 This book is the first detailed publication on the famous submachinegun that under his incorrect nickname Schmeisser became a symbol of the Blitzkrieg as the favorite small arm of armored units and parachutists But despite its fame reliable information was until now very scarce In this book the history and development of the MP38 MP40 and MP41 are described for the first time Moreover several prototypes and rare variants are depicted including the MP38 L and the MP40 1 with dual feed system

**Soviet Machine Guns of World War II** Chris McNab, 2022-02-17 This study looks at how the Soviet armed forces developed and deployed a range of machine guns that fitted with their offensive and defensive infantry tactics across six years of total war In 1939 three machine guns dominated the Red Army's front line infantry firepower the DShK 1938 heavy machine gun the PM M1910 medium heavy machine gun and the Degtyaryov DP 27 a lighter bipod mounted support weapon Confronted by cutting edge German technology during the Great Patriotic War 1941 45 the Soviets responded with the development of new weaponry including the RPD light machine gun the 7 62 54mmR SG43 medium machine gun and the improved version of the DP 27 the DPM Taken together all these weapons gave the Red Army a more practical range of support weapons better able to challenge the Germans for fire superiority on the battlefield Fully illustrated this study explains the technology and the tactics of these machine guns Noted authority Chris McNab sets out how these machine guns were distributed and tactically

applied and provides numerous examples of the weapons in action from assault teams on the streets of Stalingrad to tank crews struggling for survival at Kursk The book also reflects upon the weapons post war service many of the machine guns remain in front line use today Illustrated with high quality photographs and specially commissioned artwork this is a deep analysis of these essential tools of warfare within the Soviet forces      *The German MG 34 and MG 42 Machine Guns* Luc Guillou,Erik DuPont,2020 The German MG Maschinengewehr 34 along with the later war MG 42 was a recoil operated air cooled machine gun and is considered the world s first general purpose machine gun Considered the most advanced machine gun in the world at the time its ease of mobility and high rate of fire 900 rounds per minute made it ideal both for infantry and antiaircraft use First entering service during the Spanish Civil War in 1936 it remained in Wehrmacht service through the end of WWII in 1945 along with its updated model the MG 42 This illustrated book presents the design manufacturing and development both of the MG 34 and MG 42 from its acceptance by the German military through production and combat use from 1936 to 1945 Details include close up views of markings and other details as well as a breakdown of the weapon Accessories such as ammunition and gun mounts are featured throughout the book as are rarely seen combat related uniform and equipment items      **The M60 Machine Gun** Kevin Dockery,2012-11-20 The US M60 General Purpose Machine Gun known as the Pig was developed in the years after World War II from two revolutionary German designs Adopted in 1957 the M60 came into its own in the jungles hamlets and city streets of Southeast Asia during the Vietnam War Humping the Pig became common in US military squads with at least one soldier equipped with an M60 and every squad member carrying ammunition for it The M60 design transformed infantry tactics as squads took advantage of the immediate volume of fire offered by the design Although it has now been replaced by the M240 series of weapons in US infantry and mechanized units the M60 is still in common use with the US armed forces Meanwhile its iconic status has been assured by its frequent appearance in many popular films and television shows from Full Metal Jacket to The A Team Featuring specially commissioned full color artwork this is the full story of the M60 the innovative squad base of fire weapon that has equipped the US military from the jungles of Vietnam to the deserts of Iraq      **The Book of the Machine Gun.
