## **Managing The Risks Of Organizational Accidents:**

**Managing the Risks of Organizational Accidents** James Reason, 1997 Presents a set of principles related to the causes of major accidents in high technology systems and describes tools and techniques for managing risks of such organizational accidents that go beyond those currently available to system managers and safety professionals Deals with prevention of major accidents arising from human and organizational causes in many different domains from banks and insurance companies to nuclear power plants and transport For those working in management or regulation of hazardous technologies Annotation copyrighted by Book News Inc Portland OR     Organizational Accidents Revisited James Reason, 2016-05-26 Managing the Risks of Organizational Accidents introduced the notion of an organizational accident These are rare but often calamitous events that occur in complex technological systems operating in hazardous circumstances They stand in sharp contrast to individual accidents whose damaging consequences are limited to relatively few people or assets Although they share some common causal factors they mostly have quite different causal pathways The frequency of individual accidents usually lost time injuries does not predict the likelihood of an organizational accident The book also elaborated upon the widely cited Swiss Cheese Model Organizational Accidents Revisited extends and develops these ideas using a standardized causal analysis of some 10 organizational accidents that have occurred in a variety of domains in the nearly 20 years that have passed since the original was published These analyses provide the raw data for the process of drilling down into the underlying causal pathways Many contributing latent conditions recur in a variety of domains A number of these organizational issues design procedures and so on are examined in close detail in order to identify likely problems before they combine to penetrate the defences in depth Where the 1997 book focused largely upon the systemic factors underlying organizational accidents this complementary follow up goes beyond this to examine what can be done to improve the error wisdom and risk awareness of those on the spot they are often the last line of defence and so have the power to halt the accident trajectory before it can cause damage The book concludes by advocating that system safety should require the integration of systemic factors collective mindfulness with individual mental skills personal mindfulness     **Harnessing the Power of Failure** John Steven Newman, Stephen M. Wander, 2018-09-13 In this book the authors employ the SFCS approach to explore a vast array of failure events in multiple sectors of transportation industry aerospace construction and critical infrastructure     Risk and Crisis Management in the Public Sector Lynn T. Drennan, Allan McConnell, 2007 A particular feature of modern post industrial societies is their growing awareness of risk and crisis management Links theory and practice with the specific aim of equipping public managers and those studying public management with the knowledge to manage risk A McConnell University Sydney Australia     **Group Interaction in High Risk Environments** Rainer Dietrich, Traci Michelle Chhildress, 2017-03-02 What governs the way in which people work together and handle technology in high risk environments The understanding of decision making communication and the

other dimensions of team interaction within aircrews and other teams in highly stressful situations is based on a multitude of diverse factors each with its own literature and individual studies This book is about how teams function in just such situations providing a uniquely integrated and interdisciplinary account of the dynamics and main explanatory factors of team interaction under high workload The book stems from the interdisciplinary research project Group Interaction in High Risk Environments GIHRE a Collegium of the Gottlieb Daimler and Karl Benz Foundation The goals of the project and therefore the book are to investigate analyze and understand the behavior of professional groups working in high risk environments and to develop practical suggestions for enhancing performance A central focus of this book is how groups in these professions deal with the factors that can threaten the safety and effectiveness of their task performance whether these factors are part of the environment or part of the team itself Four representative workplaces were investigated in three broad settings in aviation the cockpit of a commercial airliner in medicine the operating room and the intensive care unit of a hospital in nuclear power the control room of a nuclear power plant The international and interdisciplinary composition of the Collegium ensures the book features a variety of different methodological and conceptual approaches which are brought to bear at both theoretical and practical levels Readers working in all related fields will find value in the case descriptions the academic synthesis of the similarities between them and ways to approach new challenges specialists in applied psychology human factors and technical management will gain new insights

**Commercial Aviation Safety** Alexander T. Wells, Clarence C. Rodrigues, 2004-01-09 An overview of airline industry safety statistics standards and mandates Covers FAA regulatory structure development of technologies management roles air transport safety measurement methods and more Includes tables relating to commercial aviation accident statistics New chapter on Aviation Security

**Research Methods for Advancing the Maritime Industry** Mobo, Froilan Delute, 2025-04-23 Maritime research has an influence on policies related to international trade and ocean governance It emphasizes the importance of navigation technologies and policies These policies are crucial for decreasing the risk of maritime accidents including ship collisions piracy and environmental disasters As a result maritime research is necessary to advance and develop policies for security on the ocean Research Methods for Advancing the Maritime Industry bridges the gap between traditional research methods and the unique needs of maritime studies It provides a tailored approach to equip students with the tools and skills necessary for conducting impactful research within this field Covering topics such as national security maritime training and human capital management this book is an excellent resource for maritime practitioners professionals researchers academicians and more

**The Routledge International Handbook of Human-Animal Interactions and Anthrozoology** Aubrey H. Fine, Megan K. Mueller, Zenithson Y. Ng, Alan M. Beck, Jose M. Peralta, 2023-09-26 This diverse global and interdisciplinary volume explores the existing research practice and ethical issues pertinent to the field of human animal interactions HAIs interventions and anthrozoology focusing on the perceived physical and mental health benefits to humans and the challenges

derived from these relationships The book begins by exploring the basic theoretical principles of anthrozoology and HAI such as the evolution and history of the field the importance of language the economic costs and current perspectives to physical and mental wellbeing the origins of domestication of animals anthropomorphism and how animals fit into human societies Chapters then move onto practice covering topics such as how animals help childhood and adulthood development pet ownership disability the roles of pets for people with psychiatric disorders the links between animal and domestic abuse and then more widely into the therapeutic roles of animals animal assisted therapies interactions outside the home working animals animals in popular culture and animals in research for leisure and food Including chapters on a wide range of animals from domesticated pets to wildlife this collection examines the benefits yet also reveals the complexity and often dark side of human animal relations Interweaving accessible commentaries with revealing chapters throughout the text this collection would be of great interest to students and practitioners in the fields of mental health psychology veterinary medicine zoology biology social work history and sociology
