Ballots draws on twenty years of Phillips experience working democratization and conflict prevention in the Middle East the Balkans the Caucasus and South Asia His recommendations are primarily directed to the United States because he believes the United States should be a leader in promoting democracy around the world At the same time he is convinced that the United States must tread softly or run the risk of fomenting further violence undermining future democratic development and setting back its own national interests This is a provocative informed and balanced analysis of the theories behind current policies *Biotechnology in a global economy*.
