Landmark Cases in Family Law Stephen Gilmore, Jonathan Herring, Rebecca Probert, 2011-07-01 There are a number of important landmark cases in the development of Family Law in England and Wales that deserve detailed examination and lend themselves particularly well to historical examination Family law cases tend to raise highly controversial issues often on striking facts frequently provoking wider social debate and or extensive publicity Consequently the landmark cases chosen for this collection provide considerable scope not only for doctrinal analysis and explanation of the importance and impact of the decisions but also for in depth examination of the social or policy developments that influenced them The stories behind the cases provide a fascinating insight into the complexities of family life and the drama that can be found in the family courts In recent years Family Law has seen enormous changes in law's engagement with the notion of family with the enactment for example of the Civil Partnership Act 2004 the Gender Recognition Act 2004 and more recently the Human Fertilisation and Embryology Act 2008 As we begin to move forward into the new millennium this is an excellent time to engage in detailed analyses and stock taking of the landmark decisions many of which were decided in the 1970s and which have shaped modern Family Law This book provides a series of in depth studies of the key leading cases and will be of interest to students and lecturers alike

Making Foreign People Pay Ali Cem Budak, 2019-05-29 First published in 1999 Making Foreign People Pay deals with the recovery of monetary claims in cross border legal relations and contains the results of a comparative empirical research of debt recovery procedures of three countries with different socio legal environments Germany England and Turkey In order to analyse judicial debt recovery of cross border claims court statistics and files have been evaluated The data show an

infrequent use of the courts in all three countries It seems that legal efforts aiming at facilitating international procedures have not been successful But court procedures for the recovery of monetary claims are now to a large extent interchangeable with what may be called privatised methods of debt collection including modern financial services such as factoring forfaiting and commercial debt collection Empirical evidence shows that such privatization of debt collection is a strong trend in cross border debt collection The book is an empirical contribution to the ongoing discussion of globalization processes and describes an important field of the globalization of law **Report** Commonwealth Shipping Committee,1910
