Developing Writers Across the Primary and Secondary Years Honglin Chen, Debra Myhill, Helen Lewis, 2020-03-09 Writing development and pedagogy is a high priority area particularly with standardised testing showing declines in writing across time and through the years of schooling However to date there are relatively few texts for teachers and teacher educators which detail how best to enable the children to become confident autonomous and agentic writers of the future Developing Writers Across the Primary and Secondary Years provides cumulative insights into how writing develops and how it can be taught across years of compulsory schooling This edited collection is a timely and original contribution addressing a significant literacy need for teachers of writing across three key stages of writing development covering early 4 7 years old primary 7 12 years old and secondary years 12 16 years old in Anglophone countries Each section addresses two broader themes becoming a writer with a child oriented focus and writing pedagogy with a teacher oriented focus Together the book brings to bear rigorous research and deep professional understanding of the writing classroom It offers a novel approach conceiving of writing development as a dynamic and multidimensional concept Such an integrated interdisciplinary understanding enables pedagogical thinking and development to address more holistically the complex act of writing

Composing a Teacher Study Group Richard J. Meyer,With Linda Brown,Elizabeth DeNino,Kimberly Larson,Mona McKenzie,2013-10-18 There has been a flurry of writing about teachers as inquirers and researchers as well as books about children as inquirers This volume brings these two areas together teachers and students are inquiring at Ridgeway Elementary School It demonstrates the importance of thought collectives as forums for student and teacher learning The children in the primary classrooms in this book are working to understand the world around them and their place in it as literate individuals Their teachers are studying themselves and the students No other book describes the way this work affects children teachers and the ethos of the school in which the work occurs In that sense this book is groundbreaking in that it is an honest portrayal of the joys and sorrows the successes and the stumbling blocks the clear vision and the obfuscating that teachers live as they enact a life of asking questions being curious wandering and wondering Acknowledging and honoring the many faces of inquiry in schools this book demonstrates the children s inquiry their teachers inquiry and the place of that inquiry in schools It lays out the ways in which inquiry is fundamental to teaching and learning in a democracy in which all of the members of the community have a voice in deciding curricular directions and ways of presenting learning Teachers are presented as thinkers and learners not merely as technicians enacting others views of what is to be learned and when Readers will find teachers dealing with the real issues of life in schools they will see how teachers can use their existing situations as points of departure for their growth and their students learning
