Latelier De Marcel Mauss:

Alfred Loisy and the Making of History of Religions Annelies Lannoy, 2020-08-10 This monograph studies the professionalization of History of religions as an academic discipline in late 19th and early 20th century France and Europe Its common thread is the work of the French Modernist priest and later Professor of History of religions at the Collège de France Alfred Loisy 1857-1940 who participated in many of the most topical debates among French and international historians of religions Unlike his well studied Modernist theology Loisy's writings on comparative religion and his rich interactions with famous scholars like F Cumont M Mauss or J G Frazer remain largely unknown This monograph is the first to paint a comprehensive picture of his career as a historian of religions before and after his excommunication in 1908 Through a contextual analysis of publications by Loisy and contemporaries and a large corpus of private correspondence it illuminates the scientification of the discipline between 1890-1920 and its deep entanglement with religion politics and society Particular attention is also given to the role of national and transnational scholarly networks and the way they controlled the theoretical and institutional frameworks for studying the history of religions

Brill's Companion to Classics and Early

Anthropology Emily Varto, 2018-07-17 The chapters in Brill's Companion to Classics and Early Anthropology explore key points of interaction between classics and anthropology from the eighteenth to the mid twentieth century Ancient Greece and Rome played varying roles in early anthropological thinking from the observations of colonial officials and missionaries through the ethnography and evolutionary ethnology of the late nineteenth century and into the professionalized social sciences of the twentieth century The chapters illuminate these roles and uncover an intellectual history of fission and fusion exposing common interests and opposing methodologies shared theories and conflicting datasets close collaborations and adversarial estrangements In augmenting and reevaluating this history the volume offers a new and nuanced picture of the early formative relationship between the two disciplines

Ian Merkel, 2022-05-06 A collective intellectual biography that sheds new light on the Annales school structuralism and racial democracy Would the most recognizable ideas in the French social sciences have developed without the influence of Brazilian intellectuals While any study of Brazilian social sciences acknowledges the influence of French scholars Ian Merkel argues the reverse is also true the French social sciences were profoundly marked by Brazilian intellectual thought particularly through the University of São Paulo Through the idea of the cluster Merkel traces the intertwined networks of Claude Lévi-Strauss Fernand Braudel Roger Bastide and Pierre Monbeig as they overlapped at USP and engaged with Brazilian scholars such as Mário de Andrade Gilberto Freyre and Caio Prado Jr Through this collective intellectual biography of Brazilian and French social sciences *Terms of Exchange* reveals connections that shed new light on the Annales school structuralism and racial democracy even as it prompts us to revisit established thinking on the process of knowledge formation through fieldwork and intellectual exchange At a time when canons are being rewritten this book reframes the history of modern social scientific thought

Lévi-Strauss Emmanuelle Loyer, 2019-01-18 Academic writer figure of melancholy aesthete Claude Lévi Strauss 1908 2009 not only transformed his academic discipline he also profoundly changed the way that we view ourselves and the world around us In this award winning biography historian Emmanuelle Loyer recounts Lévi Strauss's childhood in an assimilated Jewish household his promising student years as well as his first forays into political and intellectual movements As a young professor Lévi Strauss left Paris in 1935 for São Paulo to teach sociology His rugged expeditions into the Brazilian hinterland where he discovered the Amerindian Other made him into an anthropologist The racial laws of the Vichy regime would force him to leave France yet again this time for the USA in 1941 where he became Professor Claude Lévi Strauss to avoid confusion with the jeans manufacturer Lévi Strauss's return to France after the war ushered in the period during which he produced his greatest works several decades of intense labour in which he reinvented anthropology establishing it as a discipline that offered a new view on the world In 1955 *Tristes Tropiques* offered indisputable proof of this the world over During those years Lévi Strauss became something of a French national monument as well as a celebrity intellectual of global renown But he always claimed his perspective was a view from afar enabling him to deliver incisive and subversive diagnoses of our waning modernity Loyer's outstanding biography tells the story of a true intellectual adventurer whose unforgettable voice invites us to rethink questions of the human and the meaning of progress She portrays Lévi Strauss less as a modern than as our own great and disquieted contemporary
