Manual Lymph Drainage Training Massage

Andrew S. Levine, Valerie J. Levine

Manual Lymph Drainage Training Massage:

Textbook of Dr. Vodder's Manual Lymph Drainage Ingrid Kurz, 1997-08-18 A special knowledge of lymphology and blood capillary physiology is necessary in order to explain the action of Manual Lymph Drainage While volume 1 deals primarily with the practice of MLD here we find the theoretical basis scientifically and thoroughly explained by a medical doctor and experienced practitioner of MLD Without such an explanation this new method cannot be accepted The translator Robert H Harris is the director of the Dr Vodder School North America in Victoria B C and specializes in MLD This is the textbook for the Therapy I courses of the Dr Vodder School

Textbook of Dr. Vodder's Manual Lymph Drainage Günther Wittlinger, Hildegard Wittlinger, 2004 Manual Lymph Drainage MLD first introduced in 1936 by Drs Emil and Estrid Vodder of Denmark is a procedure which stimulates the lymphatic circulation with slow circular and careful pumping massage movements of the hand and the thumb The thin lymph vessels run through the body tissue like a drainage system which transports the lymphatic fluid via large collecting vessels the lymph nodes on to the blood circulation Manual Lymph Drainage has especially proven its worth in the case of a congestion of the lymphatic flow This is often the result of postoperative abdominal surgery and surgical treatment of breast carcinoma It is only with this smooth and harmonic form of massage that the lymphatic flow is stimulated in the sensitive lymph capillaries Painful swelling is removed and healing is encouraged This volume contains all the subject matter of the basic course and has proven its worth for many years Hildegard Wittlinger is the director of the Dr Vodder School in Walchsee Austria and has taught the MLD technique throughout the world since 1972
