The diversity of focus in chapters makes the book relevant to anyone with interest in higher education matters. From the opening to the closing chapter, students are making a contribution on what the university has done or is doing for them to succeed or what it should consider doing to improve its service to students. This touches on every environment that students find themselves in a university setting, from residences to the classroom to commuter or off campus students. The book's extended use of the capabilities approach and critical social theories has enabled it to provide nuances on not only the success of students but more importantly about how the higher education environment can transform itself to practices relevant for the sector today.
