Kayne a preeminent theoretical syntactician who has sought over the course of his career to understand why both these facts are true With a particular emphasis on comparative syntax these chapters collectively consider how wide a range of questions the field of syntax can reasonably attempt to ask and then answer At issue among other topics are the relation between syntax and certain aspects of semantics the relation between syntax and what appear to be lexical questions the relation between syntax and morphology the relation between syntax and certain aspects of phonology insofar as silent elements and their properties play a substantial role and the extent to which comparative syntax can provide new and decisive evidence bearing on these different kinds of questions To Kayne comparative syntax can shed light on what may initially seem lexical questions and antisymmetry on the evolution of human language itself Taken as a whole these essays elucidate the theoretical contributions of one of the most influential scholars in linguistics

Substantive Perspectivism: An Essay on Philosophical Concern with Truth Bo Mou,2009-09-16 I have been thinking about the philosophical issue of truth for more than two decades It is one of several fascinating philosophical issues that motivated me to change my primary re ective interest to philosophy after receiving BS in mathem ics in 1982 Some serious academic work in this connection started around the late eighties when I translated into Chinese a dozen of Donald Davidson s representative essays on truth and meaning and when I assumed translator for Adam Morton who gave a series of lectures on the issue in Beijing 1988 which was co sponsored by my then institution Institute of Philosophy Chinese Academy of Social Science I have loved the issue both for its own sake as one speci c major issue in the phil ophy of language and metaphysics and for the sake of its signi cant involvement in many philosophical issues in different subjects of philosophy Having been attracted to the analytic approach I was then interested in looking at the issue both from the points of view of classical Chinese philosophy and Marxist philosophy two major styles or frameworks of doing philosophy during that time in China and from the point of view of contemporary analytic philosophy which was then less recognized in the Chinese philosophical circle
