Montaigne Leacuteducation Humaniste:

Montaigne Pierre Manent, 2020 2014 and now translated for the first time into English by Paul Seaton Pierre Manent provides a careful reading of Montaigne's three volume work *Essays*. Although Montaigne's writing resists easy analysis, Montaigne includes seven essays before he even explicitly states the purpose of the *Essays*. Manent finds in it a subtle unity and demonstrates both the philosophical depth of Montaigne's reflections and the distinctive and even radical character of his central ideas. To show Montaigne's unique contribution to political discourse, Manent compares his work to other influential modern philosophers including Machiavelli, Hobbes, Pascal, and Rousseau. For example, whereas Hobbes proposed the modern state as necessary because of humanity's supposedly natural condition in a war of all against all, Montaigne did not see the state as the remedy to civil religious discord. But in fact, speculation on the state does not play a large role in the *Essays*. Rather, Montaigne's philosophical reflection focuses on the concept of what he calls *la condition humaine*, the human condition. In *Montaigne: Life without Law*, Manent tracks how Montaigne develops this concept. Above all, Manent encompasses Montaigne's analysis in three terms: virtue, pleasure, and death. As Manent shows by deploying these and other categories, Montaigne's *Essays* present not a philosophical system but rather a new form of thinking and living which provides us with a way of engaging in a truly thoughtful life. What might human life look like without the imposing and even towering presence of the state? In raising this critical question, Montaigne's *Essays* makes an important inquiry that remains of great relevance for Europe and other areas of the world alike. In showing the unity of Montaigne's work, Manent's study will appeal especially to students and scholars of political theory and philosophical history.

took himself as the great object of study in his *Essays* In studying himself Montaigne is studying mankind He attempted to weigh or assay his nature habits his own opinions and those of others He is searching for truth by reflecting on his readings his travels as well as his experiences both public and private The Renaissance was a period of expanding horizons and one in which there was a vast increase in knowledge of the world and its inhabitants At the same time Europeans were recovering Latin culture and a much more complete grasp of Greek literature Science was developing New horizons made previous truths seem wrong or parochial These discoveries provided Montaigne and other skeptics with a treasure chest of new facts which they used to increase our sense of relativity of all man's beliefs about himself and the world in which he lives
