**The Political Economy of the Eurozone in Central and Eastern Europe** Krisztina Arató,Boglarka Koller,Anita Pelle,2021-06-30 The idea for this volume came from the enigma that some Central and Eastern European CEE European Union EU member states have been keen to join the Eurozone while others have shown persistent reluctance Moreover the attitudes towards joining have seemingly not correlated with either the level of economic development or the time spent as part of the EU nor with any other rational reason such as the level of integration into the EU real economy or the level of trust in the EU on the part of the public Therefore at first sight the answer to the question why in why out remains rather unclear The attractiveness of the currency union has nevertheless not disappeared for the CEE countries Despite the Eurozone crisis of 2010 13 it was during that time that the Baltic states introduced the euro Then after a few years of inactivity Croatia and Bulgaria successfully applied for membership of the exchange rate mechanism in July 2020 amid the economic crisis caused by the coronavirus COVID 19 pandemic At the same time the three Visegrad countries still using their national currencies Poland Czechia and Hungary no longer have a target date to join the monetary union This volume aims to discuss these issues from horizontal aspects and through country studies with contributions from expert authors from or closely related to the CEE region

**Democratic Innovations in Central and Eastern Europe** Sergiu Gherghina,Joakim Ekman,Olena Podolian,2020-05-21 Democratic Innovations in Central and Eastern Europe expands research on democratic innovations by looking specifically at different forms of democratic innovations in Central and Eastern Europe The book covers direct democracy referendums in particular deliberative

democracy practices and e participation forms which are salient in practice because they match the political realities of our time Expert contributors show how the recent actions of ordinary citizens in several Central and Eastern European countries have challenged the contemporary political order and grassroots movements and diverse forms of mobilization have challenged the notion of weak civil societies in the East The empirical evidence presented attempts to deepen citizen involvement in political contexts sometimes quite different from the democratic political systems in the Western world Using lessons from a still largely underexplored part of Europe the book both complements and revises theoretical approaches or complements empirical results in existing studies on democratic innovations Democratic Innovations in Central and Eastern Europe will be of great interest to scholars working on democracy political systems political engagement and Central and Eastern European politics The chapters originally published as a special issue of Contemporary Politics The Trajectory of Democracy--why Hungary Matters United States. Congress. Commission on Security and Cooperation in Europe,2015

Waterbury, 2010-11-15 This book investigates the relationship between states and transborder ethnic groups in Eastern Europe It uses the case of Hungary

which has long standing ties to the nearly three million ethnic Hungarians in neighboring countries to address why and how kin states take action on behalf of their ethnic diasporas and the consequences of that engagement for regional relations and domestic politics The book argues that it is not ethnic affiliation but elite political competition within a newly liberalized post communist party system together with European Union integration that both drives increased engagement with ethnic kin abroad and constrains its most dangerous forms The Economist ,2011 *PlanEcon Report* ,2007-08 **Britannica Book of the Year** ,2015 **Parliamentary Debates (Hansard)**.
