Music Artist Investor Contract Template:

What They'll Never Tell You about the Music Business Peter M. Thall, 2016 This insider guide discloses the hidden dynamics and often unfortunate consequences of what really happens when a deal is prepared contracts are signed and promises are made and alerts musicians attorneys songwriters and anyone else interested in the music business to the potent dangers lurking beneath the surface of this incredibly competitive industry

New Trends in Intelligent Software Methodologies, Tools and Techniques Hamido Fujita, Guido Guizzi, 2023-10-15 Software is an essential enabler for science and the new economy but current software methodologies tools and techniques are often still not sufficiently robust or reliable for the constantly changing and evolving market and many promising approaches have proved to be no more than case oriented methods that are not fully automated This book presents the proceedings of SoMeT_23 the 22nd International Conference on New Trends in Intelligent Software Methodology Tools and Techniques held from 20-22 September 2023 in Naples Italy The conference brings together researchers and practitioners to share original research and practical development experience in software science and related new technologies and is an opportunity for the software science community to take stock of where they are today and consider future directions The 25 papers included here were carefully selected from the many high quality submissions received after a rigorous review process with each paper typically being reviewed by 3 or 4 reviewers Topics covered range from research practices techniques and methodologies to the solutions required by global business SoMeT_23 focused in particular on intelligent software the application of artificial intelligence techniques in software development and tackling human interaction in the development process for better high level interface with an emphasis on human centric software methodologies end user development techniques and emotional reasoning for an optimum performance between design tool and user Exploring trends theories and challenges in the integration of software and science for tomorrow's global information society the book captures a new state of the art in software science and its supporting technology and will be of interest to all those working in the field
