András Szántó. *Imagining the Future Museum* András Szántó, 2023-05-15. Following on the widely read *The Future of the Museum 28 Dialogues* which explored how museums are changing through conversations with today's generation of museum directors, New York-based author and cultural strategy advisor András Szántó's new compilation turns its attention to architects. The conclusion of *The Future of the Museum* was that the software of art museums has evolved. Museum leaders are working to make institutions more open, inclusive, experiential, culturally polyphonic, technologically savvy, attuned to the needs of their communities, and engaged in the defining issues of our time. It follows that the hardware of the art museum must also change. Conversations with a carefully selected group of architects survey current thinking in the field, engaging not only architects who have built some of the world's most iconic institutions but also members of an emerging global generation that is destined to leave its mark on the museum of the future.
