Job Creation And Local Economic Development:

Job Creation and Local Economic Development 2020 Rebuilding Better OECD,2020-11-23 The impact of COVID 19 on local jobs and workers dwarfs those of the 2008 global financial crisis The 2020 edition of Job Creation and Local Economic Development considers the short term impacts on local labour markets as well as the longer term implications for local development

Job Creation and Local Economic Development OECD,2014-11-19 This publication highlights new evidence on policies to support job creation bringing together the latest research on labour market entrepreneurship and local economic development policy to help governments support job creation in the recovery

Job Creation and Local Economic Development 2018 Preparing for the Future of Work OECD,2018-09-18 This third edition of Job Creation and Local Economic Development examines the impact of technological progress on regional and local labour markets It sheds light on widening regional gaps on job creation workers education and skills as well as inclusion in local economies

Job Creation and Local Economic Development 2023 Bridging the Great Green Divide OECD,2023-03-14 The green transition is changing jobs skills and local economies It poses new challenges but also opportunities both of which will differ across places within countries This report Job Creation and Local Economic Development 2023 Bridging the Great Green Divide provides novel evidence on those risks and opportunities across regions in 30 OECD countries

Job Creation and Local Economic Development 2016 Collectif,2016-11-28 This second edition of Job Creation and Local Economic Development examines how national and local actors can better work together to support economic development and job creation at the local level It sheds light on a continuum of issues from how skills policy can better meet the needs of local communities to how local actors can better engage employers in apprenticeships and improve the implementation of SME and entrepreneurship policy It includes international comparisons that allow local areas to take stock of how they are performing in the marketplace for skills and jobs It also includes a set of country profiles featuring among other things new data on skills supply and demand at the level of OECD sub regions

Job Creation and Local Economic Development 2024 The Geography of Generative AI OECD,2024-11-28 Regions across the OECD face a range of labour market challenges and are undergoing a significant transformation An ageing workforce low labour productivity growth persistent regional disparities pervasive labour shortages and new technologies will require both people and places to undergo transitions This report Job Creation and Local Economic Development 2024 The Geography of Generative AI examines the health of regional and local labour markets including through new estimates on regional labour shortages and their drivers New tools and technologies such as Generative AI could help policymakers address these challenges and seize new opportunities for job creation and local economic growth This report provides novel evidence of the geography of the impact of Generative AI on jobs across the OECD It examines which places within countries and types of workers are most exposed to Generative AI and contrasts this with the labour market impact of past waves of technologies that drove automation Finally it discusses local and place based

actions and policies for seizing the benefits of Generative AI such as boosting productivity mitigating labour shortages and demographic change as well as for mitigating risks of job displacement *Job Creation and Local Economic Development 2016* OECD,2016-11-21 This second edition of Job Creation and Local Economic Development examines how national and local actors can better work together to support economic development and job creation at the local level **Economic Development Incentives, Reported Job Creation, and Local Employment** Paul Bryne,2018 State and local policymakers continue to utilize and place an important emphasis on economic development incentives as a means of attracting and retaining employers with tax increment financing TIF being one of the more popular incentives Recently a number of states have increased reporting requirements for local economic development agencies in an attempt to ensure that targeted incentives are achieving their stated objectives However the economic validity of these reported jobs depends heavily on the extent to which the incentives draw new economic activity into an area This paper examines the credibility of the number of jobs reported by local economic development agencies in Missouri as having been created or retained by TIF The paper examines the impact of these reported jobs on county employment as measured by the Bureau of Labor Statistics Results suggest the number of jobs reportedly created by TIF districts do not significantly impact county employment **Job Creation and Local Economic Development** ,2015 Creating more and better quality jobs is key to boosting growth reducing poverty and increasing social cohesion At national level job creation requires a stable macroeconomic framework coupled with structural policies that encourage innovation skills and business development But how can national and local policies be better aligned and tailored to specific local opportunities and challenges There are a number of barriers to getting the local conditions for job creation right Policy makers often work in silos due to institutional barriers and rigidities in performance management structures and many policies are not flexible enough to be tailored to local conditions Additionally the search for efficiency in delivering national policies and programmes can sometimes lead to a lack of attention to the negative effects that a one size fits all approach can have in certain regions This report provides guidance on how policy makers can bolster local job creation and achieve sustainable inclusive growth while meeting challenges such as youth unemployment population ageing and climate change **Job Creation and Local Economic Development 2023** Organisation for Economic Co-operation and Development,2023-03-14 The green transition is changing jobs skills and local economies It poses new challenges but also opportunities both of which will differ across places within countries This report Job Creation and Local Economic Development 2023 Bridging the Great Green Divide provides novel evidence on those risks and opportunities across regions in 30OECD countries It examines the geography of green task and polluting jobs and examines the impact of the green transition on gender and socio economic inequality by identifying the characteristics of workers in those jobs Furthermore the report tracks the progress regions have made in greening their labour market over the past decade The report provides actionable policy recommendations that can help deliver a green and just transition It

looks at past and other ongoing labour market transitions and identifies local success drivers that can help communities prepare for and manage the impact of the green transition Finally it points out actions for ramping up and adapting local skills development systems to meet the demands of the green transition and equip their workforce with the right skills for the future

Job Creation and Local Economic Development 2024 Oecd,2024-11-28 Regions across the OECD face a range of labour market challenges and are undergoing a significant transformation An ageing workforce low labour productivity growth persistent regional disparities pervasive labour shortages and new technologies will require both people and places to undergo transitions This report Job Creation and Local Economic Development 2024 The Geography of Generative AI examines the health of regional and local labour markets including through new estimates on regional labour shortages and their drivers New tools and technologies such as Generative AI could help policymakers address these challenges and seize new opportunities for job creation and local economic growth This report provides novel evidence of the geography of the impact of Generative AI on jobs across the OECD It examines which places within countries and types of workers are most exposed to Generative AI and contrasts this with the labour market impact of past waves of technologies that drove automation Finally it discusses local and place based actions and policies for seizing the benefits of Generative AI such as boosting productivity mitigating labour shortages and demographic change as well as for mitigating risks of job displacement
